COLUMBIA NEWS NOTES

SPECIAL CORRESPONDENCE

A farm bureau picnic held at Columbia school grounds Wednesday proved very enjoyable as well as beneficial to the community in general. After the usual big feed, cafeteria style, that the wives of the farmers of the locality are accustomed to spread, the afternoon was passed in various ways. Paul Mehl of the bureau of markets; J. D. Mickle, state dairy and food commissioner, and M. S. Shrock of the Oregon Dairymen's League, addressed the farmers and their wives. The main points emphasized were the need of farm organization and many demonstrations were drawn to prove their value. A committee was appointed to visit the farmers in the interest of the Oregon Dairymen's League and procure signatures to the contract offered by Mr. Shrock. While the above named gentlemen were busy with the League matters, County Agent Bennion amused the boys of the pig club by managing a very enthusiastic game of ball, after which they were taken to the reservoir for a good swim. On their return packages of pop corn hailed about them and the boys agreed that Mr. Bennion makes a pretty good entertainer. There was a large crowd in attendance.

Wallace Spencer and family left on Friday the 2nd on a motor trip to La Grande to spend the Fourth with the family of his wife.

Frank Beddow and wife joined by Mr. and Mrs. John Gentry made a trip to Hiway Springs to spend the Fourth.

Mr. and Mrs. Henry Schlegel accompanied by Mrs. Bellsamper, sister of Mrs. Schlegel, left Tuesday for Portland and valley points on a visit.

Rev. Owen Jones stopped off a few days and visited his family who are here for the summer on his return from Chicago where he attended the convention of Masons held there recently.

The lawn social under the auspices of the Neighborhood club will be held on the spacious lawn of the Henry Sommerer's ranch on Friday, the 16th. Everybody is cordially invited.

BUTTER CREEK ITEMS

SPECIAL CORRESPONDENCE

The Independence Day picnic which was held by the Butter Creek community was greatly enjoyed and largely attended.

The first hay crop is nearly all in the stack and some are preparing to cut the second crop.

R. T. Atterbury who has been confined to his bed from blood poisoning in his hand is improving rapidly.

Those from other localities who were at the picnic were Mr. and Mrs. E. D. Rieman of The Dalles and Mr. and Mrs. D. T. Warren of Combs Canyon.

Mr. and Mrs. Elmer Warren and son of California, were guests last week at the D. H. Shaw home. Mr. Warren is a cousin of Mrs. Shaw.

Mrs. M. M. Riel who was thrown from their buggy last Tuesday received some bad bruises, but is able to be about again.

Mrs. Irene Rhea is home from O. A. C. to spend her summer vacation.

The school election was held Monday, June 21, and those elected were: Mrs. W. G. Ogden, clerk; J. Spencer, Mr. Paulson and Mr. Keith, directors.

CARE OF TIRE VALVES

One part of an automobile tire which comes in for too little attention is the valve. The principal attention a motorist need give the valve is simply to see that all dust and dirt are excluded from its interior.

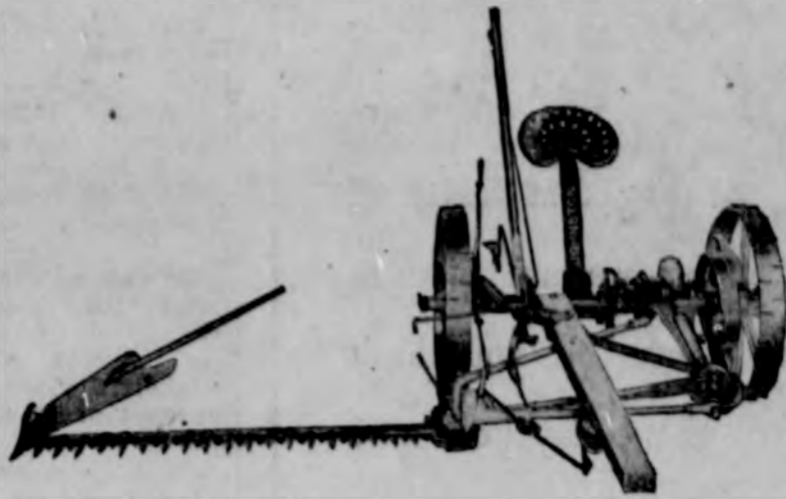

There is a rather common belief that the valve cap is unessential. This idea is erroneous, for when a cap is not used there is a strong likelihood that dirt will work into the valve and produce a leak. In addition, if the cap is screwed on well, a break-down of the valve insides need cause the driver no inconvenience, as the cap will prevent the tire from deflating. Valve caps on bicycles, motorcycles, automobiles and trucks are all of one size, so if a cap is lost, it may easily be replaced.

When removing the plunger from the valve do not drop it into the dirt, for dust may lodge on the red rubber washer. If dirt has worked its way into the plunger, throw away the plunger and put in a new one.

Sometimes there may be a leak around the base of the valve stem. In that case the hexagonal nut should be tightened. This hexagonal nut should always be screwed down tight against the washer at the base, as this makes a satisfactory seal around the opening through which

The valve stem enters the tube. The rim nut must always be screwed tight, so that it closes the hole in the rim. If this is not done, dirt will work in between the tire and tube and cause the tube to wear out.

This advice is given by the United States Tire Company, but as all the large tire companies use the same make of valve, the advice may be followed by practically all tire users.
