BOARDMAN NEWS

SPECIAL CORRESPONDENCE

Carl Voyer has moved his family and household goods to Hermiston. Mr. Voyer informs us he has accepted a position with the Reclamation Service as timekeeper. We are very sorry to lose the Voyers as they are a very desirable family and have many friends here.

Mr. Scroggs of the Reclamation Service was here Thursday and in company with S. H. Boardman went over the project. He was very much surprised over the wonderful progress made by our ranchers this year, and was especially pleased at the fine garden on the Ben Attebury ranch, not only at its luxuriance but at the variety of vegetables produced.

The Parent-Teacher's Association met last Friday to reorganize for the year's work. Officers were elected and committees appointed. Mrs. Ruth Ballinger was re-elected president, Mrs. W. H. Stewart vice-president, Mrs. W. O. King secretary and Mrs. D. E. Harper treasurer. It was decided to hold a community play soon, also to have a community Thanksgiving dinner.

Boardman Fair committee has been fortunate in securing \$200 appropriation from Morrow county to be given as cash prizes. The exhibit will be sent under supervision of W. W. Sneed to the State Fair at Salem next week, to be included in the Morrow county exhibit.

This last week a carload of coal was received here, consigned to the Grange. We understand that it was the finest coal ever received at this station and sold at \$18 per ton. There was not sufficient to go around and it is understood there is soon to be another car full brought in. The Grange has also bargained for a car of lumber.

Several of our young people took in the dance at Messner last Saturday night. A good time was reported.

Mr. Everett, who went to Pilot Rock Saturday to bring down some of his worldly goods got as far as Irigon Sunday night on his return trip when he broke an axle. He walked to Boardman in time to have Mr. Warner and others gather up the East End children for school. Mr. Everett expects to have the truck repaired soon, and will then gather up the children himself.

Mrs. Ada Morrison who has been spending the summer near McMinnville, Oregon, returned home Sunday.

Mrs. O. H. Warner, landlady of the Highway Inn, is spending several days in Pendleton, shopping preparatory to making an extended trip to California.

Mr. and Mrs. Floyd Rouse of Portland, motored through Boardman Sunday enroute to the Pendleton Round-Up. Mrs. Rouse is Mrs. Claire P. Harter's niece.

Mrs. Royal Rand who was visiting last week in Echo and Hermiston is now in Portland for a short time.

Mrs. M. B. Signs, who recently underwent a severe operation in Portland Surgical Hospital returned home Sunday. She is very much improved but far from well.

Miss Schafer, of the Highway Inn, returned Saturday from a two weeks visit in Portland with her mother, Mrs. White.

Brunswick Principles In Fine Tire Making

The reason you are interested in the name on your tire is that it identifies the maker. By knowing the maker you can judge his ideals of manufacture.

The only secret of a super-tire lies in the principles of the maker. His standards decide the quality. For there are no secrets in the tire industry.

What you get depends on what is behind the name on your tire. Brunswick, as you know, means a very old concern, jealous of its good name. Since 1845 the House of Brunswick has been famous the world over for the quality of its products.

The Brunswick Tire is all that you expect—and more. Your first one will be a revelation. You'll agree that you've never known a better. And you'll tell your friends. So spreads the news among motorists. The Brunswick is the most welcome tire that ever came to market.

Try one Brunswick Tire. Learn how good a tire can be built. And remember, it costs no more than like-type tires.

SINNOTT VISITS MORROW

(Continued from page one)

ting out some of the rougher land it is very probable that the price even with the advanced cost of construction will be no greater than it is at the present time. In view of the fact that the State of Washington is now contemplating the irrigating of two million acres of land in the Horse Heaven District from the Columbia river, with an acre cost of \$175, we are unable to see any reason why Morrow county could not hope with a good chance of success for the early construction of the great John Day project.—Happner Gazette-Times.
