**Trial by Jury.**  
 The establishment of trial by jury dates back prior to the time of Alfred the Great. He is said to have organized juries of 12 men, as now in practice, but even earlier six Welsh and six Anglo-Saxon freemen acted as a jury when there was a dispute between Welsh and Saxons.  
**Folly of Selfishness.**  
 To be selfish is to be ignoble—to repose on a lower platform for lower gain, when you might choose a higher. To be selfish is to sacrifice the nobler for the meaner ends, and to be sordidly content.—H. R. Hawels.

**PREVENT SPREAD OF DISEASE**  
**Of Greatest Importance That Carcasses of Dead Animals Be Buried or Burned.**  
 When it is considered that the spores of anthrax may be distributed to live stock through the feces of cats, dogs, hogs, chickens and flies it is more readily apparent that carcasses of animals dead of disease should be burned as speedily as possible. Most of these disease carriers come in close contact with the larger domestic animals and thus the direct transmission of germs from their body surfaces is possible and also it is known that they are more than likely to contaminate water courses. It is possible that many cases of anthrax may be attributed to the common house fly.

**QUITE EXPENSIVE OATS**  
 The actual cost of producing a bushel of oats in Missouri this year was 75 cents, which does not include 7 cents a bushel for hauling to the elevator. The rent was figured at \$6.83, cost of planting at \$6.08 and the cost of harvesting at \$7.71 per acre, or a total cost of \$20.68, which yields 27 1/2 bushels.

# GROWING TIMBER WILL PAY WELL

Farmers Owning Small Tracts Will Find It Advantageous to Market Crops Together.

**CASE IN NORTHWEST CITED**  
 When Care is Exercised in Selecting and Cutting a Woodlot May Be Made Source of Income for an Indefinite Period.

With the help of the Forest Service and the county agent, a number of farmers who live in Hangman Valley, Wash., just north of the Palouse Division of the St. Joe Forest, are co-operating this year in the sale of about 300,000,000 feet of timber.  
 Last fall the Forest Service was requested to aid these farmers in disposing of a considerable amount of timber on their claims. It developed that there were approximately 200 settlers who owned about 300,000,000 feet of timber which they desired to dispose of as a unit in order to attract some company capable of handling the entire proposition. They were, however, unable to agree upon a satisfactory price. The project had been worked up by the local county agent, a former Forest Service man, from whom the request for help came.  
**Not Needed for Crops.**  
 The Forest Service agreed to make an appraisal of the timber and to assist in drawing up a contract and sale conditions. The appraisal was made last spring and a price fixed of about \$3.50 per thousand feet. Although the land is well adapted to agriculture, it will not be possible for the owners to put all of it into cultivation for a number of years. Consequently it is to their advantage to devote it to growing timber until such time as it is needed for raising crops. The stand consists of yellow pine of a good quality and contains a large number of trees just below merchantable size which will make rapid growth when the old timber is removed. It is distinctly a case where it will pay the farmers to grow trees. These facts were explained to the members of the association and they quickly saw the advantage of handling the forest in the manner recommended.

**Symbol of Holy Roman Empire.**  
 The double-headed eagle of the Holy Roman empire was sometimes crowned and sometimes bore the nimbus upon it. The dual heads represented dominion over the east and the west and came to be used in the coat of arms of both Austria and Russia.  
**Walls No Bar to Wireless.**  
 The antennae of the wireless station in the cathedral of Florence, Italy, are entirely within the building, yet work satisfactorily, though the wireless waves pass through several thick walls.  
**Personality.**  
 The greatest and most vital power in influencing life is personality. It is greater than law, instruction or example.—Lyman Abbott.  
**In Praise of Early Rising.**  
 I was always an early riser. Happy the man who is. Every morning day comes to him with a virgin's love, full of bloom and freshness. The youth of nature is contagious, like the gladness of a happy child.—Bulwer-Lytton.  
**Always Sure to Please.**  
 Jud Tunkins says a campaign speaker is always sure of applause because most of his audience is already on his side of the argument.  
**That Elusive Elf, Opportunity.**  
 If that sensitive elf, Opportunity, comes knocking at your door, don't wait a minute; let him in, or he'll never seek you more.  
**Early Mesmerism.**  
 Braidism is an old name for hypnotism, derived from James Braid, who invented this species of mesmerism in 1843.  
**Feels His Importance.**  
 When he casts his first vote a young man wonders how the world would manage to get along if he were to die.

Farm Woodland After Thinning.

ed. In order to save the young growth they agreed to sacrifice 30 cents per thousand on the stumpage price.  
**Co-operation is Favored.**  
 Farmers in general who own small bodies of timber will find it profitable to co-operate with their neighbors in marketing their grown timber. In many cases the individual amounts are too small, as in the above instance, to make it profitable for their owners to advertise for bids or for sawmills to come in. When care is taken in selecting and cutting timber a woodlot may be made a source of income to its owner for an indefinite period of years.
