PROSPERITY AHEAD

There is much comfort to be had from the statement recently of Judge Elbert H. Gary, head of the United States Steel corporation, the greatest business concern the world has ever produced.

Judge Gary says a long period of wonderful prosperity is just ahead of the people of the United States.

When Judge Gary opens his mouth he is in the habit of saying something, and he never says a thing unless he knows what he is talking about.

He has been a wise prophet in the past, because he possesses the ability to read conditions and possibilities as they are.

There is no reason why his prophecy should not be one of wisdom in this case, because there is no reason why we should not prosper and every reason why we should.

Banks and financiers generally state that we have passed through our worst period of depression and are now on the up grade. Only the rankest kind of pessimism can hold us back.

And who wants to be a pessimist when every human instinct spurs us on to optimism?

Let's demonstrate our faith in the return of prosperity by recognizing the fact that it is here and by doing our share toward its maintenance in this community.

Let the watchword be production wisdom in spending, and the employment of a systematic course of saving.

A proportionate amount of the prosperity of the country belongs to the people of this community.

Let's get all we can and keep all we get.

Other communities will be doing the same.

LITTLE CHILDREN

The little children romping around today will become the men and women of another generation. They will control the destiny of this community then, as we control it now.

Community betterment is always the goal of every good citizen. It is the great lubricant which causes the wheels of enlightenment to spin noiselessly and to a purpose.

To insure a better community for the future we must begin with the children of today.

If in their childhood they are taught to differentiate between wisdom and foolishness, between the good and the bad, between right and wrong, the lessons they learn will bear golden fruit in after years, and the community we love so well will be brighter and better because of the influence they will exert upon the citizenry of their day.

Remember the little children of today, for tomorrow they will have children of their own, and the law of heredity is strong with us all.

The sun shines brightly when we push the clouds away, but the little child has not learned that lesson.

TO THE RESCUE

Thomas E. Watson, the new United States senator from Georgia, is to introduce a bill in the senate making Liberty bonds legal tender. This would put them on a par with the national currency and restore them to at least par value.

If the government ever hopes to sell another bond in this country in time of emergency, it will do well to protect the bondholders now.

It requires simply an act of congress to make every one of these bonds legal tender. That would require every person to accept them in payment of obligations just the same as currency.

They would possess an added advantage over currency in that they would be drawing interest where currency does not.

They would become a possession of value even to the small investor, whereas now they are but a despised and depreciating drug in the market.

It's clearly up to our Uncle Samuel, so shrewd in many things but so blind in this, for some of these days he may need the wherewithal to again patch his pants.

And the dear confiding public has a disagreeable habit of remembering disagreeable things.

The fellow who kicks his home town shouldn't complain if he finds that in time the town begins to kick him. Kicking is not a profitable pastime at best, and people would do well to keep this fact in mind when they assume to emphasize their own judgment against that of an entire community.

Every good citizen does his part. Have you done yours?

"A GIRL NAMED MARY" IS A DELIGHTFUL MOTION PICTURE

It is an appealing bit of girl-psychology that Margaret Clark unfolds in her new picture, "A Girl Named Mary," which will be shown at the Play House, Wednesday, January 26th. She has the role of a stenographer living in a humble flat with a woman whom she has always called mother. A rich widow has been searching for 15 years for her daughter who was carried away, involved in a train wreck, and never heard from again. The widow suddenly discovers that Mary, the stenographer, is the long sought-for girl and she pours out her heart to her, offering her ease and luxury instead of her humble life of toil. Mary's heart is torn with conflicting emotions. She hardly knows her real mother and she has learned to love her foster-mother dearly. At first she rebels at the elegance and lofty tastes of the widow's household and runs away. But finally a certain young man, the sweetheart of her less prosperous days, clears up the difficulty by asking her hand in marriage.
