"Poor Whites" of Porto Rico.

Nor was servitude confined to Africans. Spain long used Porto Rico as a penal colony, and when public works no longer required them, the convicts were turned loose to shift for themselves. Most of them took to the mountains, where the "poor white" population is numerous to this day. Yet the later generations are no more criminal than the Australians; if there is much petty thieving, it is natural in a hungry, overcrowded community.

Manganese.

Manganese is found in Japan in three forms: Metallic, which is over 50 per cent pure manganese, being used principally in the making of certain kinds of iron and steel and as an amalgam; dioxide, or "black manganese," having as high as 90 per cent manganese and largely used in the making of chemicals, drugs, paints and electric batteries; and carbonate ore, which until recently has been a waste product in Japan.

Long Thumbs, Strong Wills.

If the top joint of your thumb is long, it shows that you have good will power. Well-developed, reasoning faculties are possessed by those people who have thumbs, the second joints of which are long. Thumbs that work easily are owned by careless, happy-go-lucky, spendthrift individuals. A stiff, firm-jointed thumb, however, shows that the person is keen, tactful, self-possessed, and cautious—the sort of man who would get on in the world.

A BAD WRECK

of the constitution may follow in the track of a disordered system. Don't run the risk! Dr. Pierce's Golden Medical Discovery remedies disorders and affections due to impure blood or inactive liver. The germs of disease circulate through the blood; the liver is the filter which permits the germs to enter or not. The liver active, and the blood pure, and you escape disease. When you're debilitated, weight below the standard, the "Discovery" builds up the body.

True Efficiency.

Efficiency is a matter of the head as well as the hands. It can never be a purely mechanical virtue, for true efficiency has its origin in careful thought. The man who forms the habit of using his brain is never in danger of becoming a mere machine.

Look Into This.

If things don't come your way, perhaps it's because you are not in the right place.—Boston Transcript.

Spaces Between Words.

The custom of separating words by a blank space in writing was not employed until the Tenth century.

If not already acquainted, get to know Garfield Tea, the advance agent of Abounding Health.—Adv.

Reading maketh a full man; conference a ready man; and writing an exact man.—Bacon.

Where We Get Pineapples.

Singapore was formerly the chief source of the world's supply of pineapples, but our fresh fruits now come mainly from the West Indies—especially from Cuba, Porto Rico and the Bahamas—and our supply of canned fruit from Hawaii. The first attempt to grow the pineapple in the United States was made at St. Augustine in 1850. Florida, however, can never hope to compete with her more favored rivals in this industry.

SCHOOL DAYS

THE WOODS

BY DOUGLAS MALLOCH

DOWN GRADE.

YES, boy, I know—you do not think; You only hear the glasses clink And feel the bogus joy of drink.

Life looks all summer through a glass; The whisky road is green with grass— But life and summer both will pass.

It's easy now to drink or not, To drink a little or a lot; But after all your drinking, what?

May it not happen ere the grave The thing you laugh at you will crave? The master will become the slave?

God! I have seen them: Boys like you, The frolickers of fighting crew, Who never thought and never knew.

Who took the road that dips and gleams, That runs ahead of singing streams (Yet somehow never downward seems).

With this same foolish passion played, The same old merry journey made, Who took the road of easy grade—

Till night came on, till sank the sun, Till shadows gathered one by one Around the path, and day was done.

'Twas then they turned; but now the hill Was high behind them, and the rill Within the valley dark and still—
