WHO BIG REST HOME
A home of truth for all persons seeking health and harmony. 406 Fleidner Bldg.

In the Thick of It.

"That girl is very anxious to get in the whirl."

"Then tell her to come down to any big office and come in by the revolving door when a bunch of messenger boys are going through."

Explained.

"Do you see the man yonder? Well, to my certain knowledge he is leading a double life."

"You don't say so!"

"Yes; he is a professional contortionist."

AN OLD TIMER

1st Cold Storage Egg: I've been in a year, when did you go in?

2nd Cold Storage Egg: It's been so long ago I've forgotten.

Above the Practical.

She cannot cook, she cannot sew,
Of business she has no knowledge;
She cannot even make a bed—
She learned too much at college.

The Progress.

"He went to court and sued her for her love."

"Well?"

"Then she went to court and sued him for breach of promise."

Contrary Tactics.

"There is one thing about putting over crooked work."

"What is that?"

"It has to be done with a straight face."

Appropriate Condition.

"I see where they christened some destroyers with cider."

"I suppose that was to pledge them always to be in apple-pie order."

Its Meaning.

"Is there any meaning in the shower bouquet which brides carry?"

"Of course; it means they are going to reign."

Precautions Necessary.

Cooler weather should not mean less care in the handling of milk and cream. Even though the weather is cooler, summer precautions are necessary if a first-grade product is to be delivered.

More Than Mere Shelter.

The modern dairy barn is more than a means of shelter for the cows.

Alfalfa Always Desired.

Alfalfa is always to be desired on the menu of the dairy cow.

CONDITIONING BIRDS FOR POULTRY SHOWS

Stand Better Chances for Winning if Well Trained.

Poultry Specialists of United States Department of Agriculture Give Suggestions for Preparation of Fowls.

Although the larger poultry shows are usually held in the fall, smaller exhibitions are staged throughout the winter months. The following advice in training and conditioning birds previous to a show, given by poultry specialists of the United States Department of Agriculture, is good the whole year round. The bird that has been properly trained and prepared will stand a better chance every time of winning a prize than another bird equally good, but wild or easily frightened, or whose plumage is soiled or dirty.

After the birds are selected, remove them from the rest of the flock and place each bird in an exhibition coop for at least a part of each day. Fowls so confined will become accustomed to the coop. Handling them—that is, removing them from the coop each day—will have the effect of making them tame. In handling the birds and removing and returning them to and from the coops, move quietly and handle the birds gently so as not to frighten them.

Examine the plumage so that the fowl will become accustomed to such movements when being handled by the judge. Likewise, attempt to compose the bird by smoothing and stroking the wattles gently; this seems to have a soothing effect on the fowls, and when done frequently and properly they come to look for it when one approaches the coop.

Birds to be exhibited should not be confined to the exhibition coops for too great a period, as long, continuous cooping may cause them to get out of condition and therefore unfit for show. A satisfactory plan is to confine the birds for a part of each day or every other day alternately up to a few days before sending them to the show, when they should be confined until ready to ship.

EXERCISE FOR SOWS NEEDED

Feed for Animals Should Be Scattered Around Floor to Compel Them to Hustle.

Sows due to farrow in April or May ought to have some bulky feed. Prof. J. H. Sheperd of the North Dakota Agricultural college reports that the herdsman at the agricultural college feeds a pound to a pound and a quarter of grain per 100 pounds weight of sow and a little alfalfa hay to give plenty of bulk. He also advises making the sows take exercise, scattering their feed around on the floor so they will have two hours or more of work in picking it up. Another good thing about alfalfa hay is that it keeps them on their feet quite a little while. Pigs from sows which have had plenty of exercise and bulky feed are usually much stronger than those from fat, lazy sows.

ROTTEN EGG IS UNDESIRABLE

Many Farmers Do Not Seem to Care or Bother About Clean Nests for the Layers.

No one likes a rotten egg, consequently no one is going to buy one—not even the commission dealer. Many farmers do not care whether their hens steal their nests or not and do not bother to hunt for the eggs until market day comes around. Once a week is sometimes as often as eggs are looked for. Any eggs that have come from an old nest or that in any way look suspicious should be candled at home before sending them to market.

TRACTORS ARE TIME SAVERS

To Get Full Benefit of Machine Farmer Should Get All Information About Mechanism.

Farm tractors are time savers for the average farmer. After a farmer gets a tractor his first impulse should be to get all the information possible about it and then so manage it as to get the full benefit from that information.

BIG FARM ECONOMIC CHANGE

Transportation of Products in Motortrucks Becoming More Popular in Middle West.

Great progress will be made in the transportation of farm products by trucks in the Middle West in the next few years. This is one of the big economic changes which is coming in agriculture.

FAIR AND CLEAR—that's the way your skin will be, if you'll take Dr. Pierce's Golden Medical Discovery. Pimples, blotches, eruptions, are banished by this medicine. It takes away the blood poisons or impurities that cause them.

For Skin affections, the "Discovery" cleanses, builds up, strengthens and invigorates the system. Eczema, Salt-rheum, Tetter, Boils, Carbuncles, are cast out.

Used by the American public for the past fifty years.

The Electric Fish.

Certain fishes exhibit peculiar electrical phenomena of muscles, nerves and heart which have given them the name of electric fishes. These have the power of giving electrical shocks from specially constructed and living electrical batteries.

Constipation, indigestion, sick-headaches and bilious conditions are overcome by a course of Garfield Tea.—Adv.

New York's Early Days.

New York's first fire chief was Anthony Lamb, a mathematical instrument maker, who received $60 a year for his services. Fire engines worked by hand came into use in 1731 and were kept in the city hall.

Shave With Cuticura Soap

And double your razor efficiency as well as promote skin purity, skin comfort and skin health. No mug, no slimy soap, no germs, no waste, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing and shampooing.—Adv.

Unfortunate Condition.

The most dreadful of all diseases known to mankind, life weariness, attacks every soul that is not making progress, that is not looking up, that has no aim, no onward purpose, no abiding object.—Exchange.

Big Claims.

If a man knows himself, he also knows others. Because I know and admit my weaknesses, do not imagine I accept the big claims made by others. When a woman says she can heal the sick by closing her eyes, tapping her forehead and wishing, I know she can't do it. I discount the talk of all the other big talkers. I have found lies so troublesome that I tell as few as possible; in fact, I almost never tell them unless cornered.—Howe's Monthly.

Garfield Tea, the incomparable laxative, pleasant to take, pure, mild in action and wonderfully health-giving. —Adv.

Not Merely American.

An English writer comments upon our custom here of betting a hat on election and other contests. What's strange about it?? We've often read of some Englishman winning a Derby. —Boston Transcript.

No Sextant Required.

"A farmer does not need to study navigation to get the bearings of his fruit trees," remarks a funny paper. No, and his neighbors' boys don't either.

Cause for Gratitude.

If we find but one whom we can speak out our hearts freely, with whom we can walk in love and simplicity, we have no ground of quarrel with the world.

Paper a Weed Killer.

In Hawaii it has been found that weeds can be kept down in sugar plantations by covering the fields with paper.

For a disordered liver, take Garfield Tea, the Herb laxative. All druggist. —Adv.

Dreaming of Skating.

To dream of skating denotes that your success is very uncertain and depends largely upon your efforts. To see others skate denotes a pleasant time. To buy, them, honor.

One of our main regrets is that the biggest pest of all—the human pest—is protected by law.—Atchison Globe.

Belgian Women Have Small Feet.

The women of Belgium as a class are noted for the smallness of their feet.

SHE FEARS GIRLS IN OFFICE

Wife Forces Husband to Give up Position, Then She Persecutes Girls and Is Arrested.

Baltimore, Md.—Mrs. Bessie Hartze's determination that no pretty girl shall steal her husband's affections landed her and her husband in the police court.

Harry Hartze has been for 30 years employed at Lerch Brothers. When the firm decided to employ women in the office Mrs. Hartze became worried. Employees at Lerch Brothers said Mrs. Hartze ordered her husband not to converse with the girls. Thereafter Hartze communicated his inquiries through another man or made notes. Finally, however, Mrs. Hartze decided these precautions were not sufficient and demanded her husband give up his position. Harry obeyed. Then Mrs. Hartze, her wrath aroused against the girls whom she considered responsible for her husband losing his position, used the telephone to tell them about it.

Finally the girls had Mr. and Mrs. Hartze arrested on the charge of disorderly conduct. Magistrate Stanford was anxious to know if the girls had really done anything to cause Mrs. Hartze to believe her husband unsafe in their presence, but all admitted, even the Hartze couple, that the girls had always acted like "perfect ladies."
