TRY THE OTHER TACK

Don't talk pessimism. It puts similar ideas into the minds of other people, and such ideas create doubt and uncertainty and hamper the ordinary progress of commercial activity and expansion.

If you can't see anything good in the future get some other fellow to do your looking for you until you can adjust yourself to conditions and acquire a better perspective of affairs in general.

If a man goes out in the morning and tells every person he meets that he is sick, and keeps up the fiction from day to day, it will grow on him until he is in reality unfit for business.

It is so in the business world. If you want to create disaster go out and preach it until other people begin to take stock in what you say and to see things as you do. Then you will soon have disaster—at least for yourself.

But if you want better times go out and preach them, and put the joy of confidence into other hearts as well as into your own. The response will be just as great.

Be a sport, and act the part.

You can do it! Very few things are impossible of accomplishment in this world of modern men.

"I can't" is an expression which is used about a thousand times where it should be used but once. A man thinks he can't do a thing simply because he is too lazy or indifferent to exert the necessary energy.

If he would bring his will power and his energy and perseverance into play he would find that accomplishing difficult things is but one of the many incidents of a day.

"Can't"

He would laugh at the word as the refuge of weaklings and the father of incompetency.

"I Will!"

And you bet he would.

If the federal treasury has hundreds of millions of dollars available for lending to Pauperized European governments it would seem that this same money should be available for the construction of irrigation projects, good roads, and water power development. These things have a definite value. European promises to pay have not.

The opportunity that was knocking at your door didn't respond when you warbled "come in." It expected you to go out and grab it.

Don't get the mistaken idea that you know it all. You never know what your neighbor thinks of you.

Great minds think much and say little. How much noise do you make?

1921 will soon be able to wear long pants.

1921 TOURIST TRAVEL TO BE GREATEST IN HISTORY

New hotel buildings are being planned, automobile camping sites improved and more camping sites are being provided by cities and towns in the Pacific Northwest to take care of the increase of tourist traffic so strongly felt during 1920 and which is expected to be even greater in 1921.

Herbert Cuthbert, executive secretary of the Pacific Northwest Tourist Association, returned from an extensive trip through the East, where he arranged with tourist agencies and railway traffic officials for the routing of a greater number of tourists to this section, to find that new hotel projects are being planned and financed in Walla Walla, Everett and Grays Harbor, Washington, and Corvallis, Oregon, and other Pacific Northwest points where hotel accommodations are not considered sufficient to take care of the increased travel. Rainier National Park accommodations are to be increased by 200 rooms.

The 1920 tourist season showed the heaviest travel ever enjoyed by this section, the money expended by tourists being placed by the Pacific Northwest Tourist Association at approximately \$45,000,000. A check of automobile traffic in Portland showed that five times as many automobiles from outside the state passed through in 1920 as in 1919.

An Extravagant Dresser.

The late czar of Russia had the reputation of being the most extravagant of European monarchs as regards dress. The bill of his civil tailor is said to have bordered on \$10,000 a year, and that of the military tailor, \$15,000.

COLUMBIA NEWS NOTES

SPECIAL CORRESPONDENCE

Quite a little hay is being sold lately and balers are at work getting the hay ready for market. The work was put back on account of much rain but the past few sunny days have helped much to dry the hay and allow the work to proceed.

Walter Graham, wife and child are visiting at the home of his father, E. E. Graham and may locate here permanently in the near future.

A baby boy was born to Mr. and Mrs. Fred Strasser recently.

Mrs. Walter Spencer has returned from La Grande where she spent the past month. While there a daughter was born at the home of her parents.

Mrs. Owen F. Jones, now of Portland made a business visit to the project last week, looking after business matters.

Arthur Futter who has been living on the La Barre place the past year has sold out and with his brother, William, who has also sold his farm north of Hermiston, is moving to Gilliam county, near Wasco, where they have secured a large tract of wheat land and will commence work there as soon as they and their families can get moved and settled.

A. H. Stockard, who broke his arm cranking his Ford a few weeks ago is reported as doing nicely.

E. Reynolds, who has been living on the Jones place the past six months, is moving back to his home on the Furnish project this week.

Tuesday afternoon the grade pupils of the Columbia and Hermiston schools took advantage of the holiday and played two games of ball on the Hermiston grounds. The boys team of Columbia defeated the Hermiston boys and in return the girls team defeating the Columbia girls.

The K. O. A. Club met at the home of Mrs. F. Willhite, Wednesday of last week. Sixteen ladies were present, having a very enjoyable time.

Mrs. Constant of Pendleton is visiting at the home of her daughter, Mrs. A. Futter.

Many of the pupils are absent from school this week on account of mumps.

The Neighborhood club met at the home of Mrs. Fisher Wednesday afternoon. A large number of ladies were present and the usual good time had.

CHARLES RAY SAYS—

"When you run across a person who is shy to a fault and isn't getting anywhere because he is too bashful, you'd do him a great favor if you would insult him good and proper. Say something to him that would get his 'dander' up. Don't tell him he's too much like a shrinking violet. Do that and he'll believe you and it won't do any good. But call him a crook or a liar or something like that. Then if there's any real stuff in him, it will come to the surface in a flash. It may be the making of him. That's what happens to Andy Gray, the fellow I impersonate in my new picture, 'Alarm Clock Andy'."

This splendid picture comes to the Play House next Saturday, February 26th.

Belgians Teach Farming.

The Belgian government has hit upon a novel scheme of teaching the farmers of the country better methods of farming, says Motor. The idea of a school for farmers is not new, but the idea of taking the school to the farmer by means of a motor caravan is certainly novel. The school building consists of three units, one powered with a gasoline motor; in short a building section on a motor truck. With this powered unit go two trailers and the three rolled into position and joined together makes the commodious and convenient classroom.

Cat Goes 600 Miles in Wheel.

A kitten crawled inside the rim of a big flywheel at the Great Northern mills at Burlington, Neb., and fell asleep. The mill pet was unnoticed and the giant machinery was set in motion. The wheel whirled about with the kitten inside for nine hours, held to its perilous position by the running of the wheel. The kitten was still alive when the machinery was stopped for the night. It was estimated it had traveled 600 miles.

The Cost of a Meal

THE PROBLEM
OF TODAY

We do not advise housewives to buy lavishly these days. But careful buying of only reliable groceries, and avoiding all waste, will go far toward keeping down the mounting cost of the table. We will be glad to cooperate with you to the extent of our ability—and that means much to you, for we buy as economically as possible and sell in the same manner.

We invite your cooperation in an endeavor to keep down the cost of the daily table.
