COMMUNITY CLUB STRATS
ABIG ROSE CAMPAIGN
(Continued from page one)

he can lend a hand at cultivation
without digging up the roots. Men
notice roses perhaps more than any
other plant. Children come to know
the rose among their first memories
of flowers and we women just natu-
rally love them. Their flower! Beau-
tiful foliage, little sticky, finicky thorn
you swear about now and then, but
like a sort of touch me not, careles-
sly feeling of respect, and sometimes
in the early morning to look out on
a rose in bud or bloom starts the day
off with love for all the world.

After the rose has reached the
blooming state it is always better if
one person cuts the blossoms, having
in mind the shape of the bush and
the thought of another to take the
place of the one cut so we need not
be afraid of sharing our flowers with
others as there will always be others
coming on to fill their places.

The Hermiston Community Club
should keep in mind the idea of pro-
pagating a rose, one particular rose
to identify itself with us. We can
try out several kinds and then ap-
point judges to make notes on their
various qualities suitable to this cli-
mate and finally produce and grow
and forever hold and enjoy our own
community rose.

I have had very good luck with
hybrid teas. They are inclined to
run out in about three or four years
but are well worth the investment
and since some of our fine varieties
are hybrid teas we must have them,
through the hybrid perpetuals are
very satisfactory and not so ex-
pensive and are good for many years.
I have never had any success in grow-
ing roses from cuttings in this coun-
try, mostly because they have to be
kept damp and require more care and
time than they are worth. Also I
find the two year old field grown
plants are more dependable and are
worth the difference in price.

We need not expect the price of
good roses to go down for awhile,
not, perhaps, until the embargo on
all horticultural plants that used to
be shipped in from other countries is
raised. So many of our finest roses
were propagated in Europe and sold
to us and like everything else before
the war they were grown much more
cheaply in Europe than here. This
is given as one of the reasons why
they cost so much more than they us-
ed to. Even though they seem so
costly to begin with they are the
cheapest flower grown since they do
not need replenishing so often. Take
moderate care in winter and common
sense in caring for them in the grow-
ing season, plenty of water, plenty of
fertilizer, shallow cultivation, care-
ful pruning and they will blossom,
giving joy to you, to your family and
to your neighbors all summer long,
from May to December in this favored
clime.

"Let's Grow a Rose" be our slogan
Community Club, thank you.
Ada R. Hinkle

Baptist Revivals
The Revival Meetings at the Bap-
tist Church continue with great in-
terest. Large crowds attend every
service. On last Sunday evening a
large number of candidates were
baptized by Rev. Sims. Fourteen
new members had been added to the
Church up to last Sunday evening,
and besides there were many other
conversions.

On Friday evening Mr. Sims will
speak on "The Last Hour." On
Saturday evening his subject will be
"The Weeping Savior."

The program for Sunday will be as
follows: 10 a. m., Sunday School.
11 a. m., Subject of Sermon, "The
Church and Our Duties." 3 p. m.,
special object sermon, "Light" will
be the subject and by two hundred
lights over the room the progress of
the Gospel will be illustrated. This
object sermon is for grown people as
well as for children. 7 p. m., Young
Peoples Meeting. 8 p. m., Subject
of Sermon by Mr. Sims, "Twelve De-
vils of Hermiston."

The meetings will close on Monday
evening with a Chinese Musical and
travel talk. A large choir of Sun-
day School children, some dressed in
Chinese costume, will render a
Chinese Musical. Solos, Duets,
Quartettes, and Choruses all in the
Chinese language. This will be fol-
lowed by a lecture from Rev. Sims on
"The Life of Confucius, and My Visit
to His Ancient Home." This is the
best lecture Mr. Sims has and every-
one should hear it. He will tell the
story of the Life of the old Oriental
Sage who lived 2500 years ago, and
then go to his home, which through
these years has been preserved by
the Chinese government, and tell of
one day spent in the Holy City, and
then standing on the Tomb of Con-
fucius look at present conditions in
the Orient.
Everybody most cordially invited.

Taken Up Notice
The undersigned has taken up and
holds at the Old Geo. Strohm place
the following described animals:
One brown mare about 4 years old,
weight about 1200 pounds, branded
LS on left shoulder.
One black mare about 3 years old,
weight about 800 pounds, no brand,
star in forehead.
One bay gelding about 3 years old,
weight about 800 pounds, no brand,
star in forehead and right hind foot
white.
The above described animals were
taken up about six days ago on the
above described ranch about four
miles west of Hermiston, and will
be sold at public auction to the highest
bidder for cash in hand on Monday,
May 9th at 1:00 o'clock p. m. unless
redeemed by owner.

If You Don't Like Heavy Repair Bills Why Have Them?

When you are not feeling fit you go to a doc-
tor or a druggist and get something to brace
you up.
The same rule applies to your car. When it
is not running smoothly it needs a bracer. It
cannot correct its own defects.
Furnishing bracers for sick cars is easy for us,
because the work is fascinating and we like
it. We correct the little defects as well as
the big ones. That's what keeps your car fit.
By coming to us at the first sign of trouble
you rid yourself of those heavy repair bills
that try your patience so much.
