## WIDESPREAD WAR ON NATIVE FARM WEEDS

Survey Set on Foot by Department of Agriculture.

New Varieties Constantly Arriving in Foreign Seed and Through Other Sources—Entire Farms Abandoned to Pests.

(Prepared by the United States Department of Agriculture.)  
The United States Department of Agriculture has set on foot what is intended to be the most comprehensive weed survey ever undertaken. Up to date comparatively little is known of American farm weeds. They are classified in botany and herbariums, but there are no definite data in regard to their spread; the prevalence of any particular weed in any locality; the amount of annual damage; new weeds, increase of old species; or local methods of eradication.

To supply the need for such data the section of weed investigations has sent a questionnaire to all the more than 2,000 county agents of the department. This questionnaire asks the names of five worst weeds in each county, in order of their importance; the methods, if any, used by farmers to combat these weeds; and what weed problems are especially serious in any particular county.

Comparatively few native American weeds have given farmers serious trouble, but new varieties are constantly arriving in foreign seed and through other sources. Some of these have become such pests that entire farms have been abandoned to them. A canvass of 200 representative eastern farmers showed that an average of 22 days a year is spent at the busiest season in trying to get rid of weeds. Investigations by the bureau of plant industry over a number of years are taken to indicate that cultivation after the seedbed is prepared has no other use than to destroy weeds. If this theory proves correct, it will add more heavily still to the annual expense chargeable to weeds.

It is the purpose of the department to use the projected survey as a basis of operation in directing a widespread war on the weeds now here, or the importation of any new ones, and to seek any local eradication methods which may be worth general dissemination.

**STRETCHER IS QUITE HANDY**  
Particularly Convenient in Repairing Wire Fences and is Easy to Put Together.

For a common wire stretcher which is especially handy in repairing fence take a piece of hardwood cut as shown in the drawing. Then drive small nails into the edge at the large

Stretcher for Repairs.

end, and cut off the heads, filing them to a point. This keeps the stretcher from slipping on the post while in use. Then make a hook from a heavy piece of strap iron as shown in the drawing and bolt to the stick with small bolts.

## PRODUCTION OF GOATS' MILK

Result of Experiments Conducted at Government Experimental Farm at Beltsville.

Milk-goat experiments in grading up from native and grade Toggenburg and Saanen does with purebred Swiss bucks, begun in 1911, were continued last year by the United States Department of Agriculture, at the government farm at Beltsville, Md. The flock comprises 26 does and 8 kids of one-half, three-fourths, seven-eighths, and fifteen-sixteenths blood. The average daily milk yield per doe in 1919 was 3.92 pounds, an increase of 2.42 pounds over the yield of the ten selected native does which formed the foundation stock of the herd. The highest milk yield for an individual doe in one day is 8.6 pounds. For 1919 the flock showed an average of 3.7 per cent butterfat.

## WORMS OF DIFFERENT KINDS

Fowls Affected Are Likely to Be Extremely Thin in Cases of Long Standing.

Some chickens have worms of various kinds. The intestines should be slit to find this out. Chickens having worms are likely to be unduly thin, and this loss of weight is extreme in cases of long standing.

## GREEN FOOD INJURES FOWLS

Too Much Causes Gall Bladder to Become Swollen and Even Burst—Flesh is Tinged.

In the case of chickens eating too much green food the gall bladder becomes greatly swollen, or may even burst, and its contents impart a green tinge to the flesh, or even to the skin near the gall bladder.

**YOU'RE AN EASY PREY,** with your flesh reduced below a healthy standard, for grip, pneumonia, and other dangerous diseases. And it's for just this condition that Dr. Pierce's Golden Medical Discovery is especially valuable.

If you're thinner than you ought to be, whether from wasting disease or defective nutrition, the "Discovery" will bring you up to the healthy standard—by restoring the normal action of the deranged organs. A strength-restorer and flesh-builder. Liquid or tablets.

## Why the Snort.

We sat in front of them at the theater. It was during the tense minute of the play when the heroine was about to part forever with her sweetheart: "Say," said the woman behind us to her friend: "Do you break many dishes? You know I'm awfully unlucky that way."—Detroit Free Press.

## A Dream.

A Boston banker says we are an extravagant nation. In this he makes no reference to us personally. One of our fondest ambitions is some day to be able to have enough gathered together so that we can go out and try what it is like to be extravagant.—Detroit Free Press.

## Wanted Doctor in a Hurry.

Richard broke two bones in his leg. When his father went to the telephone to summon a doctor the little chap said: "Please, daddy, tell the doctor to come in a flying machine instead of his auto so he can come quick, 'cause it hurts me so."

## Cuticura Soothes Itching Scalp

On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your every-day toilet preparations and have a clear skin and soft, white hands.—Adv.

## Speaking of Manna.

The friends of a certain first-day school were astonished at the next given by a small girl, who in a tone of great earnestness repeated during the closing exercises: "Ye cannot serve God and mamma."—Friends' Intelligencer.

## The Chinese Years.

Like our own leap year, every third year in China is longer than its predecessors, but the Chinese add a whole month, instead of an extra day, to make up for the time lost, according to the calculation of the calendar.

## Grease in Wallpaper.

Press a cloth moist with high-grade gasoline against the paper for about a minute. Do this repeatedly, as a single application will remove only a part of the grease.

## Seems Queer, Sometimes.

Jud Tunkins says a friend sometimes takes the liberty of telling you so much about your faults you wonder how he manages to remain friendly.

## Grain's Many Names.

Corn is a term often used for the important cereal crop of a given region; thus in England corn usually means wheat; in Scotland, oats; in Ireland, barley, while in this country it means maize.

## In Any Trade.

"A dress designer," says a Camomile street dressmaker in the London News, "must be born." We always think this is an advantage.—Punch.

## Easy Method.

You can judge whether apples are fresh or not by the sassa they give you.—Boston Transcript.

## Thought and Art.

"Poetry," says Matthew Arnold, "is thought and art in one."

**Cuticura Talcum**  
Fascinatingly Fragrant  
**Always Healthful**

**Are You Satisfied?** BEHNKE-WALKER BUSINESS COLLEGE is the biggest, most perfectly equipped Business Training School in the Northwest. Fit yourself for a higher position with more money. Permanent positions assured our Graduates. Write for catalog—Fourth and Yamhill, Portland.

To Show Strength and Stability, the Tower is Carrying Approximately 12,500 Pounds.

## REMEMBER TO PLANT TREES.

"The scout is a lover of the out-of-doors," says A. C. Wessel, writing of "Forestry for Scouts," in Boys' Life. "Trees, singly or in large groups, offer him many attractions and pleasures. He must not lose sight of the fact that to help plant and conserve our trees and to rate the forest which yields him fruit, fuel and timber for shelter, as a living perpetual resource is a patriotic service and duty."

Another forbids card playing on Sunday. The use of profanity is strictly forbidden. J. Weber Smith, awaiting trial on a charge of first degree murder, is president of the club.

**Tax for Bachelors Over Thirty.**  
Erfurt, Germany.—In the matter of taxation the town of Eisfeld, Thuringia, is doing pioneer work by imposing on bachelors of more than thirty years a special tax amounting to 50 per cent of the municipal income tax.

has granted have been swallowed up without appreciably relieving the situation.

"Blue" Laws in Jail.  
Columbus, Ind.—Prisoners in the Bartholomew county jail have laid down a set of rules for their own government which very much resemble "blue laws" now being enforced in some parts of Indiana. One rule requires each prisoner to walk three miles daily in the corridors to keep himself in good physical condition.
