SUCCESS WITH YOUNG STOCK
Part of Constructive Benefits Lost by Failure to Properly Develop Animals.

To breed good dairy cattle and then fall to grow and develop them is to lose part of the benefits of constructive breeding. More beginners fail because they do not properly feed the stock they buy or breed, than fall from any other cause. Find the farmers who grow out their young stock, and you will find men who are making a success in their animal husbandry enterprises.

MUCH BUTTER IS IMPORTED
Efficiency of Foreign Dairymen is Largely Responsible for Large Amount Coming Here.

The efficiency of the foreign dairymen is largely responsible for the vast amount of imported butter reaching this country. In Denmark the average cow's production is 220 pounds of butterfat a year. The average cow in this country is credited with less than 150 pounds.

First Rule of Feeding.
The first rule of successful and economical feeding of dairy cows is to give all the good roughage the cow will eat, making as much use as possible of those roughages on the farm.

NEW WAY TO RAISE WRECKS.
Still another method is being tried for raising wrecks from great depths. The latest thing in this work is hypodermic salvage. It is found that in vessels loaded with bags of rice, grain and malt it is possible to give them, so to speak, a hypodermic injection of compressed air. A sufficient quantity of this air is retained in the mass to make it buoyant. It is then possible to shift the grain from one part to another without its losing its quality.—Boys' Life.

WRIGLEY'S

"AFTER EVERY MEAL"
Mint leaf, peppermint or luscious juicy fruit, either flavor is a treat for your sweet tooth.

And all are equally good for you. Teeth, appetite and digestion all benefit.

Your nerves will say "thank you," your vim will respond.

WRIGLEY'S is liked for what it does as well as for its BIG value at the small cost of 5c.

TAKES UP SCHOOL GARDENS
Polish Children Enlisted in the Garden Army by the Junior Red Cross of America.

Washington.—Modeled along the lines of America's school garden army, is the force of Polish children formed by the Junior Red Cross of America when that organization was called upon to carry relief and cheer to the children of Kosciusko's land. With the first warm spring days thousands of

youngsters in Poland will gather up their hoes, rakes and spades and advance upon vacant lots, determined to convert them into vegetable and flower gardens, just as will young America.

Of the many things which the Junior Red Cross introduced to the children of Poland, community gardens made the strongest appeal. It not only gave the children a chance to take up gardening, but also provided healthful recreation for thousands of stunted, undernourished little bodies fighting an un-

equal battle with disease in the crowded capital of Poland, Warsaw. In addition it has already helped to keep the wolf of starvation away from many a home.

The children enlisted in the garden army in Warsaw raise potatoes, beets, carrots, cabbage, parsnips and beans. Their fall crop in 1920 comprised 93 tons.

The success of the Warsaw gardens last year was so pronounced that they will be extended to other centers this spring.

NOTHING STANDS SO HIGH as a remedy for every womanly ailment, as Dr. Pierce's Favorite Prescription. This "Prescription" is an invigorating, restorative tonic, a soothing and strengthening nerve, and is for painful disorders and chronic weaknesses peculiar to the sex. It is for young girls just entering womanhood; for nursing mothers; and every woman who is "run-down," tired or overworked.

Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package of Tablets.

Ancient Popular Pastime.
The Chinese have played ball in various ways from times of remote antiquity. For centuries games of ball have been known and played in Japan, Ethiopian and East Indian traditions refer to games with balls played many centuries ago.

Afraid of the Classics.
A farce comedy recently opened in New York with the title "The Merchant of Venus!" The critics praised it and it was apparently destined for a long run, but despite the fact it was in the smallest theater in town very small audiences came. The manager discovered that people thought it was a burlesque on a Shakespearean play. He changed the name to "Because of Helen!" and the theater was filled every night thereafter.

Rose Leaves Again.
Rose bowls are no longer old fashioned, but modern, comes the word from New York. The idea of keeping rose leaves has been revived and Chinese pattern bowls are becoming very popular.

When Green and Tender.
It is in our salad days that we are most particular about our dressing.—Boston Transcript.

Did It Seem That Long?
Santa Cruz News—"She was sixty-nine years of age and she had been married for more than a century."—Boston Transcript.

Land of the Orris Root.
Orris root, which is used as a basis of many perfumes, is obtained only around Florence and in the neighborhood of Verona.
