Mower Parts Special

As we are going to discontinue handling McCormick Mower parts and in the future stock only Johnston parts for our own machines, we offer the following McCormick parts at 10 per cent cash discount while the supply lasts:

Pitman Bolts; Pitmans, ironed; Pitman Wood only; Knives; Pitman Boxes, plain; Pitman Boxes, with grease cup; Mower Knife Clips; Sections; Guards; Knife Heads; Guard Bolts; Section Rivets; Knife Head Rivets; Wearing Plates

These are all guaranteed parts. Buy while the supply lasts and save money.

See us about a Johnston mower early and if we cannot satisfy you that we have something better, you still have time to buy something else.

**Be an International
Farmer**

Buy International machines for the most successful operation of your farm, then keep them 100 per cent International as long as they last by using only Genuine I H C Repairs. Be an International Farmer, and we will back you up by International Service, which is prompt, dependable and permanent.

**What an Experienced Farmer
Knows**

Any farmer of experience can tell about how long his farm machinery will run before the parts that need replacement will wear out. These include, with many others, shares, shovels, guards, knives, sections, blades, teeth, etc.

Order Repairs Early

All these items should be listed and ordered early far in advance of the time when they will be needed. You will save time and money by ordering all the repairs at one time. This will save you money later in the season, when you may be obliged to pay for long distance telephone calls, and express or parcel post charges on numerous small orders.

When Delays are Expensive

And, what may later prove much more costly than these charges, is the time lost waiting for repairs just when the implement should be working to capacity in the field.

On Your Money

A true statement and the dividend is paid in advance.

We have always maintained that Goodrich tires were the best buy regardless of price and when Goodrich comes along as the leader in the movement for lower price on high grade, worth-having tires, and knocks 20 per cent off the price it really means that one-fifth of the previous purchase price for Goodrich Tires is handed over to put in your inside pocket.

As your banker might say: "It's an investment that commends itself any way you look at it."
