MUCH IN LITTLE
 Dried bricks from Nineveh and Babylon are to be found in the British museum.
 Most of the tobacco grown in the principal two districts of South Africa is raised from Virginia and Tennessee seed.
 A hundred years ago it was a common thing for members of the British parliament to go to the house in a state of intoxication.

For removing rusted screws from metal a screw driver has been invented that is operated by a ratchet in a handle extending to one side at an angle to afford leverage.
 For traveling musicians a Pennsylvanian has invented a full-sized bass drum that can be folded and carried in two cases, one an ordinary suitcase, the other about the same size but of different shape.

THE CODE.
 YOUR morals down there in the city
 Are different morals from ours:
 Both punish, ner pardon, ner pity,
 The serpent that gits in the fowls';
 Both punish, when punishment's comin',
 An' yet on a different plan:
 You generly brand the woman—
 We generly shoot the man.

Country's Oil Refineries.
 Today there are more than 400 oil refineries in the United States, with an aggregate daily capacity of nearly 2,000,000 barrels. Texas leads all the states with more than seventy plants completed. Oklahoma is second and Pennsylvania third.

THE BEEBE COMPANY
 Where Duellists Are Barred.
 A curious old form of oath, which bars those who have fought duels from holding office in the county or state, is still administered in Texas. The man elected has to swear he has never had any part in a duel.

Witty Simile.
 The last speaker of a long program at a recent banquet said: "My speech will be like modern style in woman's dress—long enough to cover the subject and short enough to be interesting."

JEAN PAIGE

Handsome Jean Paige has won a large following of admirers in her work as a "movie" star. She is the daring and dainty little actress who has been the center of attraction on many bills offered by the motion picture houses. Miss Paige was reared on her father's model farm near Paris, Ill. She knows horses and loves them.

HOW DO YOU SAY IT?

Common Errors in English and How to Avoid Them

"PERSONS" AND "PEOPLE."
 The word "persons," used to indicate a number or a gathering of human beings, is numerical; the word "people" is collective. The difference in the use of the words may be illustrated more easily by giving examples than by discussing the grammatical principles involved.
 We say, correctly, "Three persons entered the theater," not, "Three people entered the theater." But we should not say or write, "There was a crowd of persons in the theater"; say, "There was a crowd of people." The rector was asked, "How many can be seated in your church?" He replied, "We can seat comfortably about one thousand persons, but if an unusual crowd of people wishes to attend the services we can accommodate more than a thousand." The Standard Dictionary says, "It would be quite out of place to say, 'The pastor desires to meet the young persons of the church.'"

A LINE O' CHEER

By John Kendrick Bangs.

THE GRACELESS SNEER.
 SOME wights today have only sneers
 For those who dwell in Yesterday.
 And from their lives for aye would cast
 The lessons of the storied past,
 But for my part my heart runs o'er
 With gratitude in endless store
 To those brave souls who called
 Life's sea.
 And charted out the course for me,
 That I might safer sail and find
 The Ports to which my Soul's
 Inclined,
 And count as base the graceless sneer.
 At forebear and the pioneer.

How It Started

ELEVATORS.

THE first power elevator is said to have been produced by E. G. Otis in a shop near Yonkers, N. Y. In the International Exhibition of 1853 in New York the first elevator with a safety device was shown. The modern elevator is a descendant of the ancient hand-power hoists used in monasteries, where no outsider was admitted, and goods were introduced by baskets and ropes.

Clear Your Skin With Cuticura

Save Birds to Save Trees.
 With the idea of saving the beautiful oak trees on the campus of Wellesley college, a number of the students have organized a bird club, which will, in every way possible, endeavor to encourage the presence of birds on the campus. It is thought that the pest of destructive insects will be held in check in this manner.

A Cheerful Note.
 "All things are full of iniquity and vice; more crime is committed than can be remedied by restraint. We struggle in a huge contest of criminality. Daily the passion for sin is greater. The shame in committing it is less" . . . This is not the outcry of one who looks with alarm upon the orgies of the profiteers, the operations of the auto bandits, the greed of landlords, and the pernicious activities of the grafters, gamblers, market manipulators and crooked politicians. It is the philosopher Seneca's description of conditions in Rome 2,000 years ago.

Lalla Rookh.
 The story of Lalla Rookh in short is this: She was the supposed daughter of Aurunzbee, emperor of Delhi. She was betrothed to Alirris, sultan of Lesser Bucharria. On her journey from Delhi to Cashmere she was entertained by Feramor, a young Persian poet, with whom she fell in love, and unbounded was her delight when she discovered that the young poet was the sultan to whom she was betrothed. The story is beautifully told by the Irish poet, Tom Moore. The title of the poem is "Lalla Rookh."

Cuticura for Sore Hands.
 Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do if Soap, Ointment and Taleum are used for all toilet purposes.—Adv.

Tree as Nursemaid.
 "The larch or tamarack, is the best 'nurse,'" said the forester, who was busy planting a double line of little larches on the edge of a new plantation. He explained that the strong, quick-growing larch was the best tree to protect others from frost and drought. "And if you are planting a beech hedge," he added, "it will pay you to plant white-thorn on the windward side, for the white-thorn will protect the beech and can be cut back later when it has served its purpose."

Perfection.
 There is a good deal of criticism of Adam's alibi—of blaming Eve for the expulsion from Eden—but none of the critics since have ever been able to frame a better one.—Kansas City Star.

Kiss Their Money Good-By.
 New York Paper—The Mongolians do not know either the kiss of friendship or that of politeness. With them the kiss is reserved to lovers, to fiances or man and wife.

Tiles of Pearls.
 Mother-of-pearl tiles, for bathrooms or other decorative use, are the new invention of Albert and Caesar Vuillemin, of Philadelphia. The shells of pearls mussels are crushed to powder and mixed with just enough cement to render the material plastic. It is then molded into tiles or slabs, and the surface is ground and polished for a pretty finish.

Remove Blood Stains.
 To remove blood stains from cloth saturate with kerosene and, after it stands a while, wash in warm water. A paste made of common laundry starch and water will remove blood stains without a trace. If not entirely removed by the first application repeat once or twice.

The city of Calgary, Alberta, received its name in 1876 from Col. Macleod, then in command of the royal northwest mounted police at that point. He named it after his old home, Calgary, a small estate on the Isle of Mull, Scotland.
