Chamberlain's Colic and Diarrhoea Remedy.

Every family should keep this preparation on hand during the hot of the summer months. It is almost sure to be needed, and when that time comes, is worth many times its cost. Buy it now.

For the convenience of the farmers and the unemployed, Shaar's barber shop will have a free employment bureau, where those desiring help may call for laborers, and those wanting work can apply for the same. See Wm. Shaar. 38-1tc

COLUMBIA NEWS NOTES

SPECIAL CORRESPONDENCE

The hay harvest has actually begun with the cutting of the first crop and the hum of the mower is heard on all sides. The work is begun early in some places before the cheat, which is thick in alfalfa, matures and harms the hay at the last stage of its growth. This grass makes prime feed mixed with the alfalfa if harvested in the proper time.

Strawberries are ripening rapidly and large quantities are being shipped out, some of the farmers hauling the fruit to Pendleton in auto trucks over the highway, thus making profit through the saving of high freight rates by rail.

The freighting business seems opening up by auto over the highway, new trucks are being bought by some, as are also passenger jitneys. The competition is strong and service can be had at any time at very reasonable rates.

Road men are putting the finishing touches on the diagonal road, hauling gravel to the sides making the required width to the highway.

Mrs. Susie Boyes and Mrs. Frank Beddow were Pendleton visitors Tuesday of last week.

Mrs. O. F. Jones and son Norris are guests at the home of Mrs. Geo. Beddow while looking after business interests here.

Mrs. Mary Ellis left on Thursday for her home at Milton. Mrs. Ellis has been employed by H. J. Stillings as housekeeper. Her place was taken by Mrs. Isabelle Carroll, from Patterson, Washington.

C. B. Greene and Will Graham have rented the 40-acre alfalfa tract of H. J. Stillings and has taken the place over at the cutting of the first crop. C. L. Shutter has retained the 5 acres of the Stillings farm, which he has sown to corn.

Mrs. M. W. Bloom made a shopping trip to Pendleton Tuesday, preparing for a visit to Portland to the Rose carnival.

The Neighborhood club met at the home of Mrs. C. Keller Thursday and a very large crowd of ladies, numbering 28, attended the party, being particularly a farewell for Mrs. Walter Loyd, who, with her husband, is moving to Pendleton, where they expect to reside for the future.

A very pleasant afternoon was spent, cake and ices being served at the close. An unusually fine large cake was made by one of Columbia's good cooks as a special feature.

Be an International Farmer

Buy International machines for the most successful operation of your farm, then keep them 100 per cent International as long as they last by using only Genuine I H C Repairs. Be an International Farmer, and we will back you up by International Service, which is prompt, dependable and permanent.

What an Experienced Farmer Knows

Any farmer of experience can tell about how long his farm machinery will run before the parts that need replacement will wear out. These include, with many others, shares, shovels, guards, knives, sections, blades, teeth, etc.

Order Repairs Early

All these items should be listed and ordered early far in advance of the time when they will be needed. You will save time and money by ordering all the repairs at one time. This will save you money later in the season, when you may be obliged to pay for long distance telephone calls, and express or parcel post charges on numerous small orders.

When Delays are Expensive

And, what may later prove much more costly than these charges, is the time lost waiting for repairs just when the implement should be working to capacity in the field.
