Bar Flappers From Streets.
Cape May, N. J.—City commissioners passed an ordinance forbidding the parade of bathers in bathing suits on the streets without suitable coverings. Older folks at the shore have complained to the police about "flappers" parading in suits, some of whom do an hour's errands before going to the beach.
The suits seen on the bathing grounds here this season are of the latest Parisian models.

leisure she scarcely ever saw him; that her lack of interest in golf caused him to be cruel to her and that he spent money in pursuit of his hobby that he should have spent maintaining her and their two children.
Mr. Hayward's answer denies golf is responsible for their marital difficulties, which he attributes to difficulties with Mrs. Hayward's relatives and to her discovery that he was not so wealthy as she had believed.
Give rope to hope.

STATE NEWS IN BRIEF.

Salem.—The Oregon Growers' Co-operative association has announced the sale of three carloads of the new prune crop. Buyers were reported as active and prunes are in demand at prices quoted by the association Friday.

Salem.—The state highway commission Saturday won the first heat in litigation brought by residents of Independence, Polk county, to enjoin the state from proceeding with the improvement of certain sections of the West Side Pacific highway.

Prineville.—During the past week 11 carloads of cattle were shipped over the City of Prineville railroad to Portland by the following: W. I. Dishman, two cars; S. Rogers, two cars; James Cram, three cars; Baldwin Cattle & Sheep company, four cars.

Klamath Falls.—Residents of the alfalfa growing section around Midland are considering the organization of an alfalfa meal factory. Low prices and high freight rates have placed the alfalfa grower in a position where it is impossible profitably to dispose of his surplus.

Salem.—There will be more men teachers in the schools of Oregon when the fall term opens in September than at any time since the outbreak of the war with Germany, according to reports received recently at the offices of J. A. Churchill, state superintendent of public instruction.

Albany.—J. W. Miller, county school superintendent of Linn county, has resigned the office, his resignation to take effect September 1. Last June Mr. Miller resigned but upon request withdrew the resignation. He has now filed a formal resignation and expects to retire as soon as a successor is chosen.

Hood River.—A. W. Stone, general manager of the apple growers' association, says that estimates of the season's apple crop for the valley, based on observations of inspectors of the association who are familiar with conditions in all parts of the district, now place the tonnage at an approximate 1,600,000 boxes.

Hood River.—The inspection department of the Apple Growers' association has announced that the district's annual apple packing school will be held on the week beginning September 12. The school will be characterized by afternoon lectures by members of the association's inspection department and by experiment station experts.

Nyssa.—W. L. Gibson, the potato king of Malheur county, and one of the directors of the Potato Growers' association of Idaho and Oregon, was a Nyssa visitor recently. Mr. Gibson stated that 30 carloads of potatoes have been shipped from here up to date. The price received was \$2 and better. The entire lot brought more than \$7000.

Salem.—Between 1800 and 2000 pickers will start work in the hopyards of the Willamette valley this week. When picking of the later clusters starts September 1 twice that number of pickers will be in the fields. The cost of producing a pound of hops in 1919 was estimated at 24 cents, which growers said probably would be the average for this year.

Salem.—It will cost approximately \$1,650,000 to harvest the 1921 hop crop in Oregon, according to Durbin & Cornoyer, who handle a large amount of the hops produced in the Willamette valley. It was estimated by this firm that the Oregon hop crop will aggregate 55,000 bales, nearly half of which will be harvested in the Willamette valley.

Klamath Falls.—Sale of the \$200,000 Klamath Drainage district bond issue will be assured and funds will be available for diking and reclaiming the lands of the district if the government contract for water rights, a copy of which has been received by the directors of the district, proves satisfactory after scrutiny. The board now has the contract under consideration.

Salem.—In the prune district south of Salem many prune trees are infested with leap spot, caused by a fungus growth, according to a report made here by S. H. Van Trump, county fruit inspector. Many trees are shedding their leaves as a result of the disease, and unless there is a proper spreading during the month of May, the trees eventually will be seriously damaged, he said.

Salem.—J. S. Landers, who is now serving at the head of the training department of the Las Vegas (N. M.) State Normal school, has been selected president of the Oregon Normal school at Monmouth to succeed the late J. H. Ackerman. It was said Saturday that Mr. Landers had accepted the presidency of the institution and would arrive here within the next two weeks to confer with the board of regents preparatory to taking up the duties connected with his new appointment.

The Flavor Lasts

Product of Coconut Tree.

A 5-year-old coconut tree begins to yield 60 nuts a year. It is estimated that 1,000 nuts will make 25 gallons of coconut oil, which is used for soap making and candle making. The husks are useful also; they may be turned into cordage, brushes or matting.

Steam Deflects Lightning.

It would seem that a building 9,000 feet above the sea level should be protected by lightning rods, but the astronomical observatory at Mount Etna has not, and does not, need such protection. The observatory is near the summit of the volcano, and the stream of vapor constantly rising from the crater acts as a natural conductor, draining the electricity out of the clouds, so that lightning is seldom seen there.

Meanings of Dreams of Weapons.

To dream of a keen-edged sword signifies a disastrous quarrel. To receive a sword, honor and reputation. To see an armed man or body of soldiers, fatigue and nervousness. To exercise with weapons, flattering hopes not likely to be realized.

Garnets for Good Luck.

A garnet in your engagement ring is supposed to bring good luck. The ancient Greeks used to say that garnets gave loyalty and frankness to their possessors, and it was also believed that these stones kept lovers true to their vows.

Cuticura for Sore Hands.

Soak hands on retiring in the hot sudsy Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do if Soap, Ointment and Talcum are used for all toilet purposes.—Adv.

Tokens of Honesty.

At some of the London docks, when two men make a trade agreement, they exchange black beans as tokens of honesty. This is regarded as more binding than a written and signed contract.

Valuable Invention.

A Russian inventor claims to have perfected a motor that can safely utilize electricity drawn from storm clouds.

Set With Any Gem.

The episcopal ring was formerly set with any gem. It is, however, at the present time set with an amethyst or a sapphire.

Girl a "Miss" When Under Ten.

In England "Miss" was formerly applied only to females under ten years of age.

Clear Baby's Skin With Cuticura Soap and Talcum

Soap, Ointment, Talcum. See every where. Formulas and Recipes. Cuticura Laboratories, Dept. X, Malden, Mass.

Unique Inscription.

There is at the entrance of the church of San Salvador in the Spanish city of Oviedo a remarkable tomb, erected by a prince named Silo, with a curious Latin inscription which may be read 270 ways by beginning with the capital "S" in the center.

Deception Island.

Deception island is one of the South Shetland islands in the Antarctic ocean. It was formed from a volcano, the cone of which rises about 1,800 feet above sea level. On the southeast side the cone wall is broken by an opening about 600 feet wide, through which the sea has flooded the crater, forming a lake harbor, called Port Foster. It is approximately circular, about five miles in diameter and about 570 feet deep.

Jataka a Name in Buddhism.

Jataka is the technical name in Buddhist literature for a story of one or other of the previous births of Buddha. The word also is used for the name of a collection of 547 of such stories included in the Buddhist canon.

A Tea Rose Odor.

The oil of guayac wood, obtained from a South American tree closely related to the lignum-vitae, is used in the perfume industry for the purpose of producing a tree-rose odor, says the American Forestry Magazine.

Ancients Knew of Compressed Air.

The principle of compressed air was known to the ancients, having been experimented with by Hero, who lived from 284 to 221 B. C. The compressed air pump was invented by Otto von Guericke of Magdeburg, in 1654.
