CHEAP COOP FOR BACK YARD

Inexpensive House Will Prove En-
tirely Satisfactory Where Small
Flock is Kept.

It is not necessary to spend much
money for housing if you are going to
keep a small flock of hens in your
back yard. Indeed, it is unwise, say
poultry specialists of the United
States Department of Agriculture.
One or two piano cases or a large
packing box may often be made into
an acceptable home. But whatever
you build should be made dry and
free from drafts, and have good ven-
tilation. The United States Department
of Agriculture has numerous bulletins
giving directions for this kind of con-
struction, and any of these are avail-
able for the asking, or for a very few
cents where a charge is necessary. A
card to the division of publications,
United States Department of Agricul-
ture, Washington, D. C., will get you
what you need.

Don't Dope Healthy Fowls.
Don't continually "dope" well fowls
with stimulating tonics and condition
powders; they don't need it, if the
fowls are healthy and kept under sani-
tary conditions.

Call Unprofitable Producers.
Old hens that become lazy get over-
fat and should be disposed of. If three
or more years old, it is not likely that
they will ever again become profit-
able egg producers.

Marketable Fowls.
It does not necessarily follow that
because a fowl seems to be of good
size that it is marketable. Frame is
not all, in the market; it must be well
covered with flesh and a little fat.

Cause of Soft Shells.
If you find a soft-shelled egg occa-
sionally you may know that the hens
are being overfed, or they lack lime
and a proper variety of foodstuffs.

Sunflower Seed Helps Plumage.
A little sunflower seed occasionally
will help gloss the plumage.

STATE NEWS IN BRIEF.

Bend.—That the lumber industry is
now on the up grade was the declara-
tion here of E. L. Carpenter, vice-
president of the Shevlin-Hixon com-
pany, on his annual inspection of the
company's western plants.

Brownsville.—It has fallen to the lot
of the American Legion post recently
organized here by the efforts of Jesse
R. Hinman, ex-commander of the As-
toria post, to inaugurate a movement
which will give Brownsville a com-
munity hall.

Yamhill.—The members of Yamhill
lodge No. 98, Knights of Pythias, ex-
emplified the fraternal spirit recent-
ly when they went to the farm home
of John Estes, a member of the order
and helped him erect his new barn.
Mr. Estes recently lost his barn by
fire. About 50 members of the order
were present.

Salem.—Twenty-seven thousand
acres of unclaimed land in Malheur
county bids fair to be taken over for
reclamation by the North Canal com-
pany, providing its officers can con-
vince the state desert land board that
they are capable of meeting all legal
and financial requirements.

Medford.—For the first time in the
history of Oregon, a county has started
suit against the resident of another
county for the collection of delinquent
taxes. It is the suit of Jackson county
against J. C. Henry of Eugene,
Lane county, an automobile dealer,
to collect \$186.34 taxes assessed in
1919 against personal property in this
city.

Klamath Falls.—Harvesting of malt
on the Caledonia marsh will start
about September 15, according to
James R. Watkins, manager of the Pa-
cific Coast Malt company, which has
about 125 acres to cut. One hundred
acres was planted late this spring and
will not yield heavily this year, said
Mr. Watkins. It will produce some
oil at this cutting.

Salem.—Most of the 30-odd thousand
ex-service men in the state will soon
receive bonus application blanks, ac-
cording to Harry C. Brumbaugh, sec-
retary of the world war veterans' state
aid commission, who placed the last
of the blanks in the mails here Sat-
urday. The forms were forwarded to
the various American Legion posts, of
which there are 104 in the state.

Hood River.—The Hood River Fruit
company Thursday night shipped the
first carload of the valley's 1921 apple
tonnage, estimated now at an approxi-
mately 2250 cars. The initial shipment,
destined for consumption in Chicago,
consisted of Gravensteins, harvested
from the Boneboro orchard of Burt
Van Horn, owner of large local and
New York state apple orchards.

Salem.—The sum of \$21,505.20 was
spent by the state board for vocational
education, in support of 16 depart-
ments of agriculture, employing 19 in-
structors, according to the annual re-
port of the board, which has just been
forwarded to the federal board in
charge of the administration of the
Smith-Hughes law by J. A. Churchill,
executive officer for the state board.

Corvallis.—Thirty-four head of dairy
cattle have been shipped from the
college herd for entry in the Spokane
interstate fair, September 5 to 9. From
Spokane the animals will be sent to
the Montana state fair at Helena, Sep-
tember 12 to 17, then to the Washing-
ton state fair at Yakima, September
19 to 24, and back to the Oregon state
fair at Salem, September 26 to Octo-
ber 1.

Monmouth.—Between July, 1920, and
July, 1921, the Monmouth Co-operative
Creamery sold 278,675 pounds of but-
ter, receiving \$136,108.73, an average
of 45.2 cents a pound. A total of 210,
317 pounds of butter fat were bought,
from which the producers received
\$97,870.78, or 46.5 cents a pound. In
addition to butter a small amount of
ice, ice cream, and miscellaneous prod-
ucts were manufactured.

Gold Hill.—Activity in the revival of
gold mining in the Elk creek district
is evidenced by the rush of miners and
prospectors from the southwest states.
This district is up Rogue river and
Elk creek about 40 miles from Gold
Hill, the nearest shipping point. The
elevation of the district varies from
2000 feet to more than 5000 feet. It
is a heavily forested area and is with-
in the Crater Lake national forest.

Bend.—Settlers on the central Ore-
gon irrigation district will have a tax
of \$1.25 an acre to pay if the budget
favored by the district directors is ac-
cepted. The budget, which is for ap-
proximately \$115,000, takes care of all
outstanding indebtedness, and is actu-
ally for a three-year period, including
accounts for 1920 and the first eight
months of 1921, and estimated ex-
penses for the remainder of the pres-
ent year and for all of 1922.

The Flavor Lasts

Makes a Handy Tool.

From an old screwdriver may be
made a handy tool for turning cast-
laid nuts that are inaccessibly lo-
cated. A slot is ground in the busi-
ness end of the screwdriver of such a
size that as the bolt comes through
the nut its end enters the opening,
where it does not interfere with the
welding of the turning tool.

Opals Found in Few Places.

There are known only five gem-opal
regions in the entire world. For 500
or 600 years, a deposit in a remote
section of northern Hungary has been
mined by local peasants. The removal
of opals from this region ceased about
20 years ago. For the most part,
stones from northern Hungary are
milky white.

A Great Jewel.

We publish beautiful editions of
books, to be sure, and thousands of
people enjoy them; but in ancient
times the expense that we spread
thinly over a thousand volumes was
all compressed into one, and it became
a great jewel of a book, a heavy folio,
worth its weight in gold.—Hawthorne.

Etching for Reproduction.

That etching, as a branch of art
apart from its fascinating accidents
and means of expression, is also a
process of reproduction which inter-
ests many of the present-day dealers,
artists, and students, cannot be de-
nied.—E. A. Taylor.

"Drumfire's" First Prominence.

Drumfire is first mentioned in Tol-
stol's description of the bombardment
of Sebastopol in August 1855.

Cuticura Soap for the Complexion.

Nothing better than Cuticura Soap
daily and Ointment now and then as
needed to make the complexion clear,
scalp clean and hands soft and white.
Add to this the fascinating, fragrant
Cuticura Toilet Trio.—Adv.

Honesty in Business

It depends upon the point of view
whether present-day appeals for hon-
esty in business are regarded as a
hopeful sign of the times or as the re-
verse.—Boston Transcript.

Thirty-One Children in Family.
Gen. Marston G. Clark, a noted In-
diana pioneer, who died in 1846, was
one of a family of 31 brothers and
sisters, by the same father and
mother.

Man to Be Dreaded.

In our wide world there is but one
altogether fatal personage, the dunce
—he that speaks irrationally, that sees
not and yet thinks he sees.—Carlyle.

Cuticura Soap Imparts The Velvet Touch

Soap, Ointment, Talcum. Sold everywhere. For samples
address: Cuticura Laboratories, Dept. 2, Malden, Mass.

Sun Engine Does Good Work.
The most remarkable sun engine,
built up to date is operated at Mead,
near Cairo, in Egypt. It consists of
five 205-foot boilers placed on edge and
in the focus of five channel-shaped
mirrors. Its best run for an hour
yielded 1,442 pounds of steam at a
pressure of nearly 16 pounds to the
square inch—equivalent to 63 horse-
power an acre of land occupied by the
plant.

Sharp Reminder.

When poison of any kind is brought
into the house it is a good plan to im-
mediately run two common pins
through the cork, opposite each other,
with the pin points extending about
an eighth of an inch past the heads on
each side. The prick of the pin gives
warning by day or night the instant
the cork is touched and proves an ef-
ficient safeguard against mishaps.

Good Flow of Gas Possible.

Clean gas stove burners by boiling
them once a month in hot soapy water.
This will keep them in excellent con-
dition, for an excellent flow of gas is
sure when the holes are free from
grease.

It Has a Certain Influence.

Perhaps it is true that money never
made a man great, but it has caused
people to forget many a man's little-
ness.

Lines to Be Remembered.

The only freedom which deserves
the name is that of pursuing our own
good in our own way, so long as we do
not attempt to deprive others of theirs,
or impede their efforts to obtain it.—
John Stuart Mill.

Penalty of Conceit.

Lots of failures can be traced to
the belief that other people are not
quite so smart as we are.—New Haven
Register.

Bastions Invented by Italians.

Bastions were invented by the Ita-
lian engineers of the sixteenth century
to prevent the enemy from collecting
in the ditch round a fortified town.
