Good Health

If you would enjoy good health, keep your bowels regular. No one can reasonably hope to feel well, when constipated. When needed, take Chamberlain's Tablets. They are mild and gentle.

THE CHEERFUL CHERUB

They invite me to parties and luncheons and teas When I much prefer old clothes and quiet And they're always so sure that I've had a good time That I haven't the heart to deny it

Tempered Cleanliness. In the Lois de la Galanterie, written for beaux and dandies in 1640. It is urged that "Every day one should take pains to wash one's hands, and one should also wash one's face as often as possible." Perhaps as often as twice a week?—Youth's Companion.

R. T. BROWN, Clerk. 8-3tc

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at La Grande, Oregon, September 30, 1921.

Notice is hereby given that Charles E. Opel, of Hermiston, Oregon, who, on June 5, 1918, made Homestead Entry, No. 019201, for Farm Unit "C" or the SW 1/4 SW 1/4, Section 19, Township 5 North, Range 29 East, Willamette Meridian, has filed notice of intention to make Final Three-year Proof, to establish claim to the land above described, before United States Commissioner, at Hermiston, Oregon, on the 29th day of November 1921.

Claimant names as witnesses: Arthur W. Purdy, Andrew McMillan, Frank B. Swayze, J. F. Strasser all of Hermiston, Oregon.
C. S. Dunn, Register

A Timely Suggestion

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is almost certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the first indication of a cold appears and before it has become settled in the system. There is no danger in giving it to children as it contains no opium or other harmful drug.

The Story of Our States

By JONATHAN BRACE XLV.—OKLAHOMA

OKLAHOMA holds the record for rapid growth. It was in the first term of President Benjamin Harrison that Oklahoma was opened up. Good farm land available under the Homestead Act was difficult to find so the United States bought from the Indians, who had been segregated in Indian territory, a large tract of some 40,000 square miles that had been used largely by the Indians as pasture for their cattle and horses. This was called Oklahoma, a word meaning "fine country," and was arranged to be ready for sale to homesteaders at 12 o'clock noon of April 22, 1889. Troops were placed on guard to prevent any settlers entering before that time for more than 100,000 "boomers" as they were called, came from all over the country to obtain farms or places for business. On the stroke of the hour, bugles sounded and the mad rush by men, women and children to locate claims began. The government had arranged land officers at many places at which claims could be filed for the farms or city lots, and all that day these were besieged by fighting mobs to register their selections. Before nightfall hundreds of farms were staked out and Oklahoma City and Guthrie were well on their way to become cities.

Thus was developed this region which came into the possession of the United States as a part of the Louisiana Purchase in 1803 and which was set aside for so many years as Indian country. Previous to the formation of Oklahoma territory, congress had forbidden white settlers in this part of the country, and this edict was enforced by federal troops. As the demand for more land was felt and as the Indians decreased in numbers, Indian territory was added to Oklahoma territory, and in 1907 it was admitted to the Union as the State of Oklahoma, adding another star to our flag, which for eleven years had contained forty-five. The state has flourished to such an extent that it has ten presidential electors, which is more than double that of many of the older states of larger size. (© by McClure Newspaper Syndicate.)

The Story of Our States

By JONATHAN BRACE XLVI.—NEW MEXICO

AS ITS name implies, New Mexico's history is closely allied with Old Mexico. It was the Spanish who were its first explorers, De Vaca visiting this region in 1536 and Coronado four years later. The natives were the Pueblo Indians, although they are sometimes erroneously reputed to have been Aztecs as they were well advanced in the arts and had a comparatively high civilization. These Indians were conquered in 1598 by Juan de Onate and became subject to Spanish rule, being forced to work the mines and pay tribute. Missions were established and Santa Fe was founded about 1605.

Except for a period of ten years when the Indians revolted and maintained their independence, New Mexico remained under Spanish control until in 1821 Mexico gained its independence from Spain and New Mexico became a province of Mexico. Thus it remained until the outbreak of the Mexican war, when in 1846 Colonel Kearny marched from Fort Leavenworth with his troops, occupied Santa Fe and declared this region a part of the United States. By the Treaty with Mexico in 1848, the upper part of the state was formally ceded to the United States and the Territory of Mexico was organized in 1851, which reached from Texas to California.

Arizona was set off from New Mexico in 1863 and a few years later a portion was contributed to Colorado. Application for admission as a state started in 1850, but it was not until 1910 that New Mexico became the forty-seventh state. New Mexico ranks fourth in size among the states with an area of 122,634 square miles, but is sparsely populated and accordingly has only three electoral votes for President.
