**Baptist Notices**

R. V. Ashmun, minister.

The first of Theodore Roosevelt's nine reasons for going to church.  
1. In the actual world, a churchless community, a community where men have abandoned and scoffed at or ignored their religion need, is a community on the rapid down grade.

The above is good and suggestive to community builders. Boost your community Sunday by coming to Sunday school at 10 a. m.

The adult class will meet in its new quarters. Since this is the last Sunday of the intensive campaign for increasing adult class attendance a large attendance is looked for.

We have classes for all. Come and swell the attendance.

The junior B. Y. P. U. broke all former records in attendance last Sunday. A steady increase is expected.

The senior B. Y. P. U. meets at 6:30, topic, "Thy will will be done with my plans." The young people of the church and congregation are cordially invited.

Morning worship at 11. The ladies chorus will render special music. Theme "Our way or God's way."

Evening worship at 7:30. Theme, "Unexpected penalty." The community is cordially invited.

Prayer meeting Thursday evening at 7:30.

**UMATILLA HAS 3 NIGHT'S CHAUTAUQUA**

(Continued from Page One)

laughs. He was greatly enjoyed and we feel that more such lectures would be a great help to the community.

The third night of the chautauqua was a musical night. The three old fashioned girls gave the programme. Their songs and music were all of our grandmother's day and their costumes were purely colonial. The violinist was an artist and was greatly enjoyed. The cello player also played the piano and one of the trio sang and gave readings and were much enjoyed.

In all, the programme was very good, for all three nights. A contract for next year is in circulation and several signers are already secured.

There was an original contract, price for the five nights chautauqua, but when they could not get here on the appointed time, they cancelled our contract entirely and took all of the ticket sales and door receipts amounting to some where near \$200.00. The local people surely appreciate the spirit of the Ellison-White company and they have made a good many friends and boosters in Umatilla.

**HERMISTON RECOVERS FROM SNOW; MAILS NOW RUNNING**

Direct Connection With Portland is Resumed; Schools Open Monday Morning

By this week Hermiston had almost entirely recovered from the effects of the storm.

Snow continued to melt all last week and the roads are now clear, though considerable snow still remains on the ground and the streets and roads are still muddy. School opened again Monday morning.

Rail service got back to normal Monday morning. The Columbia gorge was cleared by the railroad company and direct train service with Portland was resumed again after a week of no service or indirect service.

The first few days of the storm the trains from Portland did not get through at all. Then the mails began to arrive by way of Tacoma and later by way of the North Bank line.

**331 U. OF O. STUDENTS FULLY SELF-SUPPORTING**

**25 Per Cent of Student Body Gets No Money From Home; Others Partly Self-Supporting**

There are 531 students at the University of Oregon who get no money from home, who make every cent their education is costing them, who are proving that it is possible for any young man or woman with energy and determination to get a college education. Undeterred by empty pockets, these students through summer labor and spare time jobs at Eugene are buying their clothes and books and paying for their laundry and their board. No job is too humble or too difficult. They support themselves doing a multitude of homely tasks. Study and toil are linked in close companionship.

Of these, 127 are freshmen, 119 sophomores, 111 juniors, 88 seniors, 44 specials, and 42 graduate students. Four hundred and four are men, and 127 are women. In addition, there are 429 men and 203 women who are partly self-supporting.

There is an enrollment this year of 2010 in the university. These statistics show, therefore, that there are 25 per cent of the students totally self-supporting, and 30 per cent partly self-supporting. This, too, in a year of unusual economic depression.
