Prest-O-Lite Storage Battery

Best Battery for Winter Use

COLD weather driving makes heavier demands upon any storage battery. Engines are stiff—oil is sluggish—gasoline vaporizes slowly—lights burn longer—and the severe cold tends to cause battery deterioration. Only a battery of maximum power and vitality can meet these demands.

The Prest-O-Lite Storage Battery has proven in the toughest of cold weather tests, to be by far the best battery for winter use.

Why be satisfied with anything short of the best? There's a Prest-O-Lite for every car.
