NOW
IS THE
LOGICAL
BUILDING TIME

Price readjustments, covering a period of months, have lowered lumber prices to rock bottom.

You should take advantage of this situation and do your building immediately. Lumber prices ARE low, but it is only reasonable to expect an increase later on when construction speeds up and there is more work under way.

Whether a new home, business building, farm improvements, garage, or just a little material for repairs, you will find the service of this company of exceptional value.

CHRISTMAS 1921

As the Christmas Season approaches our thoughts are again turned away from the sordid affairs of business, away from financial difficulties, forgetting for a time our liabilities and thinking only of our assets. These assets are not all merchandise and accounts receivable.

The most valuable asset we have, the one that money cannot buy, is your good will. And so at this Holiday Season we extend to you, not as a customer alone, but as a friend—the best wishes for

A HAPPY CHRISTMAS & A PROSPEROUS NEW YEAR
