BOARDMAN NEWS

SPECIAL CORRESPONDENCE

(Too late for last week) Boardman, Ore., Feb. 11—The Boardman schools and Community have had a busy and profitable week-end. On Wednesday afternoon Mrs. Lulu Johnson, county nurse arrived for the monthly school inspection, weighing all the pupils and checking up health conditions.

Thursday afternoon the Farmers' institute began with an extensive discussion of irrigation and drainage led by Prof. Johnson of O. A. C. Friday morning Miss Cooley of O. A. C. had a class of women in clothing economy and Prof. Gunn of O. A. C. gave a comparison of costs and profits with records from hay, dairy and diversified farms for the year 1919 and 1920. The statistics showed that the two last represented the best chances to make money. In the afternoon Miss Cooley continued her work with an enthusiastic class and C. S. Brewster of Kerr-Gifford and Co. of Portland discussed poultry raising from his knowledge and experience gained by 18 years of study teaching and practice.

Saturday morning Prof. N. C. Jamelson of O. A. C. discussed local dairy problems with special reference to the benefits of keeping high producing, high testing cows and proper feeding of the same. In the afternoon Prof. H. A. Ludgren of O. A. C. presented the hog as an economic adjunct of the farm production in the consumption of farm waste products. Miss Cooley continued her work with the women with a discussion from the standpoint of the house wife.

Special features of the occasion were community dinners on Friday and Saturday and an exhibit of the work of the vocational department of the schools. From 30 to 100 farmers and their wives attended the sessions.

Boardman high school won its second game of basketball from Irigoin Saturday night 12-15. They play Stanfield at that place on the 17th, which concludes their schedule and baseball will then have their attention.

A. L. Mays of the state highway service has moved with his family from Pendleton to Boardman and will develop a tract of land which he owns west of town.

Mrs. Lulu Johnson, county nurse, spent two days in Boardman this week continuing the health inspection recently inaugurated. At this time all the pupils were again weighed and measured and given special inspection for skin and throat infections. Recommendations are made direct to the parents and family visits are made whenever necessary.

The local town council met with the school board in an effort to have the school district continue to furnish water for the town. The board however, decided that the load on the school plant was heavy enough in serving the school.

Supt. M. B. Signs of the Boardman schools has notified the board that owing to other plans he will not be a candidate for re-election when the consideration of teachers for next year comes before the board at its March meeting. Mr. Signs is concluding his third year as head of the schools during which time they have grown steadily in numbers and efficiency and it is generally conceded that this is the best year the schools have known.

Greatest Man. Leonardo da Vinci is considered by several competent judges to have the strongest claim to the title of the greatest man in history. He was the outstanding genius in the golden age of genius, the age of Shakespeare, Luther, Erasmus, Cervantes, Michael Angelo, Titian and Raphael.

American Shrub Appreciated. One American shrub which has been received with great appreciation in England, and which grows well there, is the gorgeous flame azalea, called by the botanists azalea canadense. This plant was sent to Europe many years ago, and perhaps is not grown so widely now as it has been in the past, owing to the great influx of rhododendron varieties.
