The Pneumonia Month
March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.

SHERWIN-WILLIAMS HOUSE PAINT SWP
How SWP cuts painting cost
The only way to buy paint economically is to forget gallon price and figure costs by area covered and years of life. SWP covers one-third more area than paints which are cheaper per gallon. It lasts twice as long without repainting, so requires half the material and costs half the labor price (for painting and repainting).
So price per gallon means nothing. Area covered, weather resistance, and years of life are the real things that determine price economy. On that basis SWP is the cheapest per-gallon outside paint you could buy.
SWP has been the leading prepared house paint for half a century. You will find a complete line of it at our store. Let us figure with you on your house-painting.

Notice to Our Customers
After April first we will do nothing but a strictly cash business. We will close all accounts April first as we can't do a credit business and not get our money. I have to pay my bills and we can't pay unless you pay us.
I am willing to help anybody but I have gone my limit and am forced to close my credit book and get the money or close my doors. So I am going to take safety first and close the doors to the credit system and do a cash business only. And this means that I can sell you your groceries for a whole lot less if I get the money than if I sell on time as we have to sell higher that way and the one that pays his bills has to pay for the other fellow that don't pay. So pay cash and make this big saving.
Make every dollar you spend a saving and get your money's worth for I will show you that you can save by paying cash. If you will get my prices after the first of the month it will be a revelation to you. I can't get a price list out next week but will have one next week that will show you what cash means to you on both meats and groceries.
