over the counter will be our strict rule after July 1. This is made necessary by severe losses and by the necessity of getting money to pay our own bills. We haven't the capital to carry your meat bills.

In order to be fair this rule will have to apply to all. While most of our business is now cash over the counter we have a few very good customers who are paying the first of every month. This is perfectly satisfactory but we must treat all alike and after July 1 will have to have cash from all. Our customers will understand our position we are sure.

By collecting cash we will be able to give you better service and better prices. So please remember its strictly
