Nutrition Classes Organized

The school nutrition class at Meacham was recently visited by Miss Edith Hoffman, home demonstration agent. All but one of the underweight children are gaining in weight. The chief trouble seems to be lack of milk and fresh vegetables in the diet. Miss Hoffman expects to visit the class once more before school closes, and in the meantime the children are being weighed regularly and are very enthusiastic about reaching normal weight.

A similar nutrition class is being held in Umatilla. This class was started about a year ago, but due to lack of scales has not been kept very regularly at work. Miss Hoffman now has portable scales which she is using, and is visiting the class every two months, weighing and measuring the children and giving suggestions as to health and diet. The last visit was Thursday, April 19th.

Any community in the county may have Miss Hoffman's help with a nutrition class. All you have to do is to ask for it.
