A LIVING INSTITUTION

A bank is more than the building it occupies. It is more than the capital and surplus. It is a living institution made so by the men who manage it. Their character is the bank's character. Their reputation for sagacity, for conservatism, for good judgment becomes the bank's reputation.

The officers of this institution fully realize this fact and are determined to guard the fine reputation which the bank has acquired.

WASHINGTON HIT BY INCREASE IN CRIME

Olympia, Wash.—Had it not been for the enactment in 1921 of the suspended sentence law, under which courts could parole first offenders under control of the state parole board, the state penitentiary and state reformatory would not have been able to accommodate the enormous increase in population that would have come, W. J. Hays, director of business control, says in reviewing the work of the parole board in the first biennial report of his department.

"It is appalling to note the increase in the criminal instinct of the young manhood of our country," the report says.

The crime increase is not confined to Washington, but is general all over the United States, according to the report, Oregon being the only state from which the department obtained figures which did not show a ratio of crime increase comparable to that in Washington.

Paroles were granted to 681 men from the reformatory during the two-year period covered by the report, of which number 70 per cent made good.

AIR RECORD IS BROKEN

Airplane Attains Speed of 250 Miles per Hour.

Washington, D. C.—All airplane speed records were broken by the United States army air service when one of its machines established the record of 250 miles an hour, the war department officials announced.

The record was established during a flight from Nogales, Ariz., to Fort Bliss, Tex. The plane was piloted by Major Leo Hefterman, with Sergeant Jensen acting as observer.

The distance of 75 miles from Columbus, N. M., to Fort Bliss was negotiated in 18 minutes, an average speed of 250 miles an hour, the department stated.

Night Riding Cases Dismissed.

Medford, Or.—The final chapter in the Jackson county nightriding cases as far as the three chief defendants, Howard Hill, Dr. J. P. Bray and J. P. Hittson of this city are concerned, was written in district court at Jacksonville when prosecuting attorney Rawles Moore asked that the remaining indictments against the men be dismissed.

Porto Rico Remains Dry.

Washington, D. C.—Despite the fact that the Philippines are "wide open" so far as liquor is concerned, Porto Rico will remain as "dry" as continental United States, under a ruling by legal authorities of the war department, and concurred in by the attorney general.

WOMAN FRUSTRATES POSTOFFICE ROBBERY

Granite Falls, Wash.—An attempt by three bandits to rob the Granite Falls postoffice was frustrated by Mrs. Florence Carpenter, wife of the postmaster, who, clad only in her night clothes, engaged in a running gun fight with the bandits, driving them off after more than a dozen shots had been exchanged. No one was injured.

Postmaster Carpenter said there was an unusually large amount of money in the postoffice vault, including payrolls for a number of logging camps in the vicinity. The bandits, who had jimmed the front door of the building, had fired one shot of nitroglycerin in the vault when they were discovered.

Mrs. Carpenter was awakened by the first shot and from a window in her house, 100 feet distant, saw one of the bandits maintaining a lookout in front of the building. She armed herself with a .22-caliber pistol and rushed to the front porch, opening fire. Two other men joined the lookout and returned the fire. They fled, pursued by Mrs. Carpenter, and made good their escape.

SURVEY VETS' HOSPITALS

Program Throughout Nation to Be Investigated, Says Director Hines.

Washington, D. C.—A complete survey of the veterans' bureau hospital program is being made, Director Hines says, to determine whether existing facilities are adequate both as to the number of beds and as to the condition of the hospital buildings.

The first establishments to be examined, it was indicated, are those in the district comprising southern California. Another establishment is the Livermore, Cal., project.

The survey eventually will comprise forty-eight hospitals in the veterans' bureau program and if it is found that the program cannot be completed under present appropriations, additional money will be asked.

INTERNATIONAL COURT PROPOSAL DEFEATED

Resolution to Accept Harding Plan Is Turned Down By Senate.

Washington, D. C.—The senate formally refused to consider President Harding's proposal for American participation in the international court of justice as created under the treaty of Versailles.

A motion by Senator King (democrat) of Utah to take up the resolution accepting the president's proposal was defeated 49 to 24, the vote being taken while the senate was in a state of uproar, due to a parliamentary tangle.

The vote came while a half dozen senators were shouting for recognition and when half the senate was not aware of the subject being voted upon.

Attempts by senators to stop the roll-call to learn what the resolution contained were blocked by parliamentary objections, and the rollcall ended without the subject of the resolution being announced. The vote was strictly on party lines, republicans voting against King's motion and democrats supporting him.
