**How Long Would This Load  
of Coal Last In Your Range?**

Some ranges are hungry, positively hungry for fuel.

They eat it up as though it didn't cost anything.

When your range gets too hungry it is cheaper to get  
rid of it.

But the next time you buy, get a range that doesn't  
need more and more fuel as it grows older.

Buy a Monarch Malleable Range. It gives the same  
satisfactory service at the same low fuel cost after ten or  
twenty years as when it is new.

If you knew the real facts you wouldn't even consider  
anything except a range built of malleable iron, riveted  
tight and solid to heavy steel plates, protected safely  
against rusting or burning out.

Come in and let us show you how a range ought to be  
built—and how the Monarch is built. The surprising part  
of it is that some of the ranges built in the ordinary way  
sell for more money than the Monarch.
