HERMISTON'S HOUSE OF QUALITY AND SERVICE

PROPER HOUSING MEANS MORE PROFITS IN HOG RAISING

The Hog needs protection more than most domestic animals because it lacks natural protection, and is very susceptible to the influence of cold, heat and drafts.

Hog houses should have tight walls, roofs, doors and windows, abundant sunlight, well drained floors and plenty of fresh air without drafts. They should be strongly built of good materials.

Frame construction meets all these requirements and Tum-A-Lum is recommended because it is carefully and accurately made, is strong, durable, dependable and will give live-long honest service.

Picture of Hog House here shown is only one of the many properly designed styles that our architectural department has worked out.

For Your Ford— Exclusively!

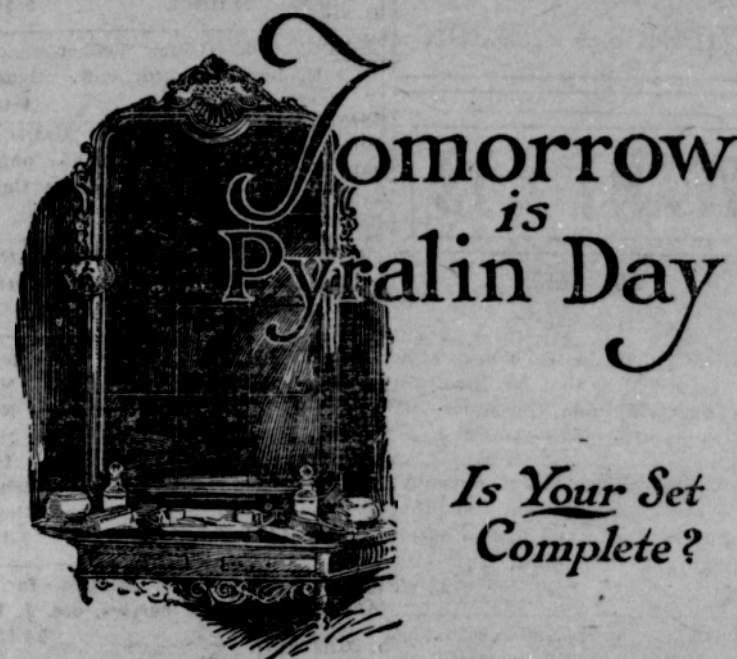

FOR years, folks lubricated their Ford cars—many still do—with the same oils that other folks used in Buicks, Dodges, Locomobiles and a host of other cars—correct oils for those cars, perhaps, but not for the Ford.

The only oil that will perfectly lubricate the Ford should be made for the Ford—exclusively. That's why Veedol Fordol was created.

Stop and let us refill your crankcase with Veedol Fordol. The smooth operation of your car will make you feel a new respect for your compact little motor.
