

They Get Over It

Old Si Chestnut says: "All men may be born equal, but they get over it before they die."

Indeed they do. Some succeed. Many fail. In which class will YOU be found? Two things are necessary to attain financial success—the opportunity to make money and the ability to SAVE it. In the matter of saving, a good bank like ours can help you. We invite you to bank with us.

ATTACKED BY A RHINOCEROS

Doctor Shelby Tells How He Killed the Huge Beast With a Snap Shot.

On one expedition—notable in my memory because I was unaccompanied by any other white men—I spied a huge rhinoceros under a fig tree not more than a hundred yards away, writes Doctor Shelby, the big game hunter.

As soon as the boys saw that rhino they grabbed up their loads, and started on down the trail.

I decided not to kill the huge beast, and was about to turn in my tracks, when he rushed me snorting and lowering his head.

He was upon me before I was in a position to shoot, so there was nothing to do but leap nimbly to one side. He put on the brakes and almost stopped, then continued on down the trail in the wake of the porters. They were heavily loaded and would have difficulty in escaping, so I made up my mind I would have to kill him.

As I raised my rifle he was just turning a bend 20 yards down the trail. And, scarcely taking aim, I fired.

It was a snap shot for his body. I fancied that he lurched forward. At any rate, he disappeared around the bend and I could hear him rolling over and over down the trail, while the cries of a dozen or more terror-stricken natives rent the air.

I hurried forward. Around the bend I found loads scattered everywhere. Some boys had scrambled upon large rocks. Two had jumped into a tree.

Some had jumped aside. One of these had been bowled over by the rhino, which then rolled over him, but luckily the boy had fallen between two rocks, which received the ponderous weight of the beast instead.

RADIO MESSAGE

Sappers' Inc. received a radio message from Santa Claus about midnight last night in which he advised them he would appear on their roof about 9 o'clock next Saturday morning to remain until about 5 o'clock in the afternoon. He also stated he would have a free present for each child if accompanied by one of the parents and that he would spend the day in the store and leave by the roof in the afternoon. The radio message was greatly appreciated as it was the first radio message ever received in Hermiston from Santa Claus.

Beck Didn't Lure a Wig

James M. Beck, solicitor general of the United States, is pleased that he doesn't have to practice law in England, where the wig and gown are essential to a barrister's appearance before a high tribunal, says the Philadelphia Public Ledger. Mr. Beck, who recently argued America's case before the Canadian court's verdict in the General Motors' suit, is authority for the statement that he could not quite overcome the feeling that he was addressing the court in his hat and overcoat—a sensation which interfered no little with his best flights of oratory.

The wig-wearing custom in the courts of Great Britain is not without its virtues, according to Mr. Beck. In court, at least, he says, all men are equal in appearance. The bald-headed advocate does not appear ridiculous and, attorneys who depend upon leonine-like manes or Byronic locks to influence the bench or jury find themselves out of luck.

SOMETHING YOU SHOULD KNOW ABOUT WINTER LUBRICATION

If an oil solidifies in cold weather it can't lubricate your car

That's why we say—use Zerolene "cold-test" oil, — it remains fluid in cold weather and lubricates the bearings and cylinder walls at the first turn of the motor—and makes starting easier.

You'll probably avoid trouble and expense by getting on the safe side, with Zerolene.

A poor "cold-test" oil often means scored cylinders, worn bearings and expensive repair bills. Be sure—use the grade of Zerolene recommended for the winter lubrication of your car. Consult the Zerolene Correct Lubrication Chart—wherever Zerolene is sold.

STANDARD OIL COMPANY (California)

Zerolene No. 1, No. 3 and No. 5 are all good "cold-test" oils. If you have trouble shifting gears, use Zerolene Transmission Lubricant "B"—it remains fluid at low temperatures and permits ready shifting of gears.
