Harold Savage proprietor of the shooting gallery in this city has the distinction of being one of the best rifle shots in the United States. For four seasons with his wife he toured the Orepheum circuit with a shooting act under the name of the Helen Savage company. Mr. Savage has a scrap book containing numerous press notices and write ups he received while on the "big time." He is also the holder of a number of medals won by his expert marksmanship. His real name is Hurd and his parents live at Echo, Savage being the name used for the stage.

Good Advice, Anyway.
 A famous bishop had the trick of pronouncing "o" like "u" thus: "I am fond of hot coffee." Once he was giving advice to a working girls' club and impressed on the members the necessity for arranging full occupation of their spare time. "Above all, girls," he said earnestly, "try by all means available to cultivate a hobby!"

Not So Painful.
 "Young man," began the boss, "you told me yesterday afternoon you had an engagement with your dentist."
 "Yes, sir, I did," replied the other.
 "Well, I saw you at a football match."
 "Yes, sir. The tall man sitting next to me was my dentist."

DOGS MUST BE LICENSED

The council is going to take action in regards to the large number of tramp dogs to be found in this city.

An ordinance was passed some years ago concerning the taxing of dogs and providing a penalty of a fine and one days imprisonment in the city jail or both of owners who fail to comply with the ordinance. A levy of \$1 is made for male dogs and \$3 for a female. The license are to be recopied from C. W. Kellogg, city recorder. A metal tag will be issued, the tag to be placed on a collar and worn by the dog at all times.

If a dog is found within the city limits who has not the tag the marshal has the right to take up the canine and after posting notices describing the animal said dog may be shot.

The mayor stated Thursday that the law would be strictly enforced and go into effect immediately.

The mayor and council are to be commended for the action they have taken in regards to the ordinance. It was passed to rid the town of worthless curs and should be enforced to the letter.

The successful man is one who recognizes his responsibilities and does not try to evade them.

Where the Railroad Dollar Goes

Practically all the money the railroads take in is immediately put back into circulation. Railroads do a large volume of business on a narrow margin of net income. Out of every dollar earned from operation by the railroads of the United States, there was absorbed in 1922, by

Wages and Salaries.....	44.4 cents
Fuel	9.4 cents
Other operating and maintenance expenses (including such items as rails and ties, loss and damage)	25.6 cents
Taxes	1.5 cents
Net Operating Income	13.7 cents

Out of this 13.7 cents of net operating income 12.2 cents went for interest on bonds and other fixed charges, leaving 1.5 for stockholders. Adding 6.9 cents of income from outside sources, net corporate income was 8.4 cents, of which 4.9 cents was paid in dividends, leaving 3.5 cents available for appropriations and surplus.

Gross earnings of the railroads in 1922 were \$1,576,000,000 more than in 1917. This \$1,567,000,000 and more too, was immediately paid out again, as follows:

\$918,000,000 in added wages to railroad employees
135,000,000 in added cost of coal, mostly miner's wages
122,000,000 for additional taxes
500,000,000 additional for materials and supplies largely representing wages

The stockholders and bondholders of the railroads got none of the increase.

It is significant that good times are always coincident with heavy buying on the part of the railroads and that bad times are periods of light railway purchases.

The Union Pacific System is one of the most important enterprises west of the Missouri river. Its nearly 50,000 employees, and their families, constitute a buying power which is the main reliance of many businesses. The purchases of the Union Pacific System from firms located on the System, or which have offices on our lines, aggregate millions of dollars each month.

The railroads are planning to spend hundreds of millions of new money during 1924 to better serve the public.

"Our transportation movement during 1923 is the outstanding industrial accomplishment of the year. The waste of the year 1920 with its car shortages, its derangement of price levels, stoppage of industry, probably amounted to not less than a billion of dollars, and the American people and no economic fabric could have stood that loss that did not have a total income in excess of sixty billions. One great contribution to the business stability of the past year has been the fact that we have had a free and regular and orderly movement of transportation."—From address of Secretary of Commerce Herbert C. Hoover, January 9, 1924.

THE COST IS SMALL

Two cents a day, in American money, will save one starving German baby in that war-ridden country according to a schedule worked out by the American committee for relief of German children, which is now gathering a relief fund of \$10,000,000 for this purpose throughout the United States, with Major-General Henry T. Allen, former commander of American troops on the Rhine, as national chairman. President Coolidge, Herbert Hoover and others of their type have endorsed the campaign.

Robert H. Strong, who was state chairman of the Hoover food campaign in 1921 in Oregon, is state chairman of this campaign, with headquarters in room 715 Corbett building, Portland.

How many babies will you save? Unless America saves them, through private charity, they will perish, says Herbert Hoover.
