**Money Coming In!**  
**when you use a De Laval**

because you have cream or butter, which bring good prices, to sell for cash, giving a good, steady income. You also have skim-milk, a wonderful feed for calves, pigs and chickens, all bringing in more money, and you keep the fertility of your soil on the farm.

But that isn't all. A De Laval brings in more money because it gets all the cream, because it doesn't waste it in the skim-milk, because it will give more years of service, because it is more convenient to clean and operate, and because it separates a richer, smoother and higher testing cream. That's why there are over 2,500,000 De Laval's in use, and why they have won more than 1000 grand prizes.

The new De Laval is better than ever. It has the new Self-Centering Bowl, light running qualities, all-around superiority and greater convenience, which make it by far the best separator you can buy
