Tin, Sheet metal work and Plumbing. Call 763. I. E. Putman. 11-11c.

S. M. Campbell, the new manager of the local Standard Oil station has moved his family from Prineville to Hermiston and has rented the Crocker house.

Mr. and Mrs. Benthia Howard returned recently from Milton where they have been visiting at the home of Mr. Howard's father.

August Belsee expects to leave soon for Longview where he will superintend the building of a factory in that city for a paper company.

Mrs. M. A. Hawn, of Portland, is visiting at the home of her brother, Mr. R. Beasley.

Sam Rodgers received word the first part of the week of the death in an automobile accident of his brother in San Jose, Cal.

Jay Pelmuider sates that in a letter received from Chicago this week was a report of the serious injuries sustained by F. W. Kuhn, a former project resident, from being knocked over by a car. Kuhn received a fracture of one leg, three broken ribs and several other injuries that threaten to be rather serious. Mr. and Mrs. Kuhn owned the farm north of town now owned by E. I. Davis, and left here only a year or so ago.

An interesting program consisting of musical numbers from the primary grades, the upper grades and the high school is to be given on Saturday at 8 o'clock at the high school building. This program is for the benefit of the school piano fund. Admission 25 and 35 cents.

Miss Hill spent the week end in Pendleton.

Mr. and Mrs. J. C. Baines and daughter Mildred, of Walla Walla, spent Sunday with Mrs. Shaar.

Marie, Pelmuider returned Sunday from Walla Walla, Wash.

Claude Whitsett returned home last week from Corvallis where he has been attending college.

The Columbia Jersey calf club held a meeting at the Waugaman home last Monday evening. This was the second meeting of the year so the club is well on its way for a successful year with having fourteen members. Mr. Henry Ott is leader and Mr. A. W. Agnew advisor. The club is planning to compete at the local field day for the trip to the Salem state fair.

Mr. and Mrs. Wm. Leathers and Mr. and Mrs. I. E. Puman were hosts and hostesses to a dinner party at the Hermiston hotel Monday evening. The tables were decorated in yellow and white. The evening was spent at cards. Mr. and Mrs. Hamm won the booby prize, and Dr. and Mrs. Prime the head prize.

Tom Marxen has rented the store east of Parker's on the west side and is getting it in shape to move his restaurant into it. He is having it kalsomined and redecorated and will be ready for business there soon.

Mrs. J. T. Hinkle has returned to Portland after a few days at her home. She was called back to Portland by the illness of a relative.

Mrs. Wm. Shaar is the owner of a new Ford coupe.

On Wednesday, April 30, the M. E. ladies met at the home of Mrs. F. P. Phipps for a birthday party for Mrs. Henry Young. About 40 guests were present and a very enjoyable day was passed. A beautiful birthday cake with sixteen candles was presented to Mrs. Young also a gift by the ladies aid. Mrs. Young said this was the first time in eleven years that she has been remembered with a birthday cake and this year she has received two. The other members of the aid are hoping to celebrate their sixteenth birthdays too.

The Methodist Episcopal Church week of Sunday, May 4. Sabbath school at 10 A. M. We are growing. Morning worship at 11. Epworth League 7 P. M. Evening worship, 8 P. M. Weekly prayer and Bible study class Thursday at 7:30. Regular monthly meeting of the official board Wednesday evening, May 7, at 8 o'clock. Henry Young, minister.

Composer of "The Rosary"

Ethelbert Nevin composed "The Rosary." He was born in Vineyard, near Pittsburgh, Pa., in 1862. He began to attract attention when ten years old by his excellent piano playing and when he was twelve he was sent to Dresden, Germany, to study.

After returning from Germany he settled in Boston and became a well-known teacher and concert player, but in 1883 the charm of Europe, especially Italy, was too strong to be resisted, and the next seven years were spent abroad, says the Detroit News. The influence of southern Europe is very evident in the dreamy, romantic tone of much of his later music. In 1900 he became a music instructor at Yale university and was in this work when stricken with heart failure. He died in 1901.

Few modern composers have excelled Nevin in perfection of melody, critics say. While "The Rosary" is his masterpiece, "Narcissus" has received no small amount of popularity. Other compositions by Nevin are "Water Sketches," "Day in Venice" and "Twas April."

Oldest Known Will

The oldest known will, found among the ruins of ancient Egypt and said to be 4,500 years old, was so constructed that its provisions would have to be carried out if made today. William C. Taylor, formerly recorder of wills, said in a talk on "Wills," delivered at the luncheon of the Newcomers club in the City club of Washington.

Christian Science Services

The Christian Science services are held in rooms next to the Auditorium every Sunday at 11 o'clock. Sunday school at 10:15. All are cordially invited to attend. Wednesday evening meeting first Wednesday each month.

Great Britain appears to be a body of land wholly surrounded by hot water.

National Forests Are Managed With Wisdom

At the present time the national forests are harvesting about 2 per cent of the lumber used in this country. Yet they are producing roughly 10 per cent of the annual effective timber growth. This is merely another way of saying that on the national forests timber is being grown more rapidly than it is being harvested, while in practically all other forest areas it is being cut very much faster than it is being produced, says Frank A. Waugh in the North American Review.

That portion of the forest timber which is being harvested is sold on the stump to contractors, who cut it, under careful regulations, and manufacture it into lumber and other commodities. Sales are made to the highest bidders and the money received is deposited in the United States treasury. These sales now produce a revenue of about \$2,000,000 a year.

This does not seem a very large amount when compared with the enormous sums paid for lumber by ultimate consumers, but in this field more than in most others the cost of manufacture, transportation and selling are many times as great as the initial cost of production, and that even though it may take one hundred years to grow a tree and only a day to cut it down. For the sake, therefore, of shifting this comparison to more familiar grounds, we may say that the present timber cut of the national forests averages about 800,000,000 board feet, worth about \$20,000,000 in its final markets.

Great Oil Shale Bed Is Found in England

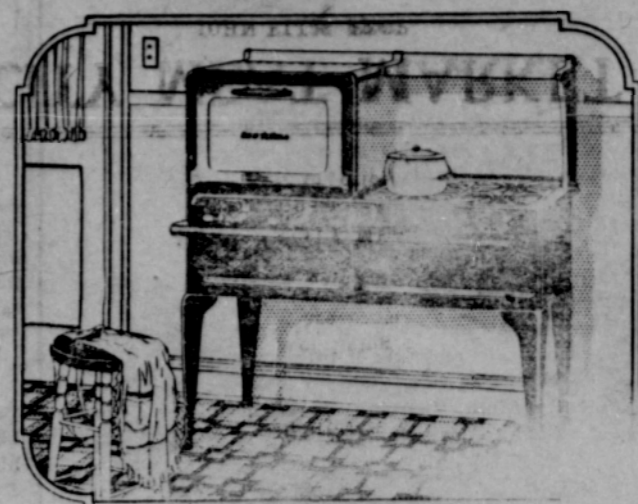

What is claimed to be one of the greatest and richest oil-bearing shale beds ever discovered has been found in West Somerset, according to the Evening Star, says a London dispatch to the New York Times.

The bed, covering a large area, is said to have been a mining surface of 600 to 700 feet, which the experts here say is unprecedented. The beds, it is declared, contain the highest qualities of oils, compared only with the hitherto an unparalleled example of oil-shale wealth.

The newspaper quotes Larrette Larkin, an English engineer, as reporting that it was safe to base the commercial production of the beds at 2,000,000,000 tons of oil shale, with an oil content of more than 1,000,000,000 tons, valued at \$3,000,000,000. He estimated the shale could be quarried for three shillings per ton.

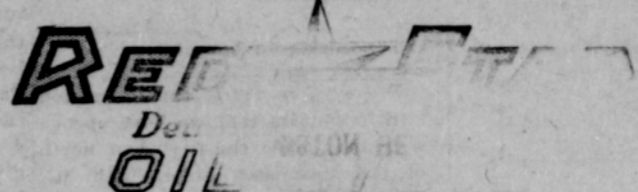

It also quotes Dr. W. Forbes Leslie, geologist, as saying the beds were a source of power from which we could draw for our industries without spending money on foreign oil. The magnitude of this discovery means that we can supply all our needs for cheap power, light and heat for centuries. He claims the beds will make England independent of foreign supplies in time of war.

SANITARY!

The Stove that uses OIL but burns GAS

The Red Star Oil Stove is the latest word in oil stoves. It has no wicks or wick substitutes. The patented, indestructible, all-metal burner changes kerosene, gasoline or distillate into clean, fast cooking gas. One gallon of fuel burns 19 hours.

See an actual demonstration of this stove at our store. We have a model and size to fit and every pocketbook.

WEST END FARMERS

Have learned that The Herald prints the best butter wrappers. We have the large size, 9 by 12 inches. Our prices are—

- 100 for \$1.25
- 200 for \$2.00
- 300 for \$2.60
- 500 for \$3.75

Many are buying them in the larger quantities, but we are here to serve you all. If you want only a few we have them without the name. These we sell as follows—

- 12 for 10 cents
- 30 for 25 cents
- 62 for 50 cents
- 100 for 80 cents

"The Home of Good Printing"

THE HERMISTON HERALD

N. J. Sinnott

Republican Candidate for Re-election to Congress

Voters of the Second Congressional District are urged to send "Nick" Sinnott back to Congress because:

- He is a member of the House Steering committee.
- He is chairman of the Public Lands committee, an important committee to Oregon.
- He is a member of the Irrigation committee, also of importance to Oregon.
- He has done more for Eastern Oregon than any Congressman ever sent to Washington from this district. Number among his accomplishments are: Secured \$900,000 for the Baker Irrigation project, secured passage of the Mineral Leasing act, which enlarged Oregon's reclamation fund; secured appropriation for construction of McKay dam, Umatilla project; supported legislation for veterans of World war; secured \$7,500,000 for National Park roads, including Crater Lake National park; \$150,000 to combat pine tree beetle in Oregon; through Forest Service is having large body of timber surveyed in Wasco county, which, when sold, will bring industries to county.

And many other important matters which are of benefit to you and his district. Read your Voter's pamphlet and then form your opinion of Nick Sinnott.

"Why Change Horses in the Middle of the Stream." Your Congressman Needs Your Vote.
