Sharp Distinction
An army officer tells of a friendly argument that arose between two young chaplains of different denominations, in which the senior chaplain rather cleverly got the better of his opponent.
"Let us bury the hatchet, my brother," he said. "After all, we are both doing the Lord's work, are we not?"
"We certainly are," replied the junior chaplain, quite disarmed.
"Let us, then," said the senior, "do it to the best of our ability, you in your way, and I in His."—Harper's Magazine.

"Pop" Not Important
"Many people," says a Scottish registrar, "seem to think that popping the question is the important event in every courtship. As a matter of fact, in many courtships proposals are never formally made at all."
"I have put the question to many couples to satisfy my own curiosity, and have been informed that no such thing was done—that they had just drifted into an engagement."
"I believe that if some country girls had to wait until their sweethearts made a formal declaration of marriage they would never get married at all."—Edinburgh Scotsman.

Bucking Buffalo Will be Brought Here for 4th
Ben Jourey will stage a rodeo in connection with the 4th of July celebration to be held in Hermiston July 3 and 4, announces that he has procured a bucking buffalo and will use it as one of the features of the rodeo. Mr. Jourey is planning to have a number of additional stunts to thrill the crowd on these two days.

Prison Built by Convicts
The work of convicts and other prisoners is not allowed to compete with the work of honest men, but prisoners may surely be allowed to build their own place of incarceration.
That was what actually happened in the case of Wormwood Scrubs prison, says the London Tit-Bits. Before a stone or brick was laid, however, the plans had to be drawn, and this task was entrusted to a convict.
This done, the building was erected entirely by convict labor, and, as it contains 1,381 cells, built at an average cost of £70 7 shillings each, both the task and the cost were no small matters.
The total number of bricks used was 35,000,000, weighing 120,000 tons, and every brick was made by convicts. The total cost of the building was £97,000.

The Christian Science services are held in rooms next to the Auditorium every Sunday at 11 o'clock. Sunday school at 10:15. All are cordially invited to attend. Wednesday evening meeting first Wednesday each month.

Save Time in the Hay Field

You can handle hay from meadow to stack and build your stack without any hard work pitching—save time—labor—money, by using:

JOHN DEERE
Dain Sweep Rakes and Stackers

John Deere-Dain Sweep Rakes are built to do a real day's work. They handle large quantities of hay easily—quickly. Best quality materials used. Teeth are genuine long-leaf yellow pine.

Dain Stackers have spring hay retainers, double A frames, long cushion springs, extension sills, and other exclusive features. They place the hay in the center of the stack, making the center solid. Stacks built with Dain Overshot Stackers settle right and shed rain.

Stop in the next time you are in town and ask us about the Dain line of hay tools—the most up-to-date line of labor-saving, service-giving hay tools on the market today, and for the past thirty-nine years.
