**YOU TELL 'EM**

Profiteering in coal is rare says a Trade Journal and also raw!

**Which?**

\$50 for Painting or \$500 for Repairing

**A 1000 per cent Investment**

That's the way to look at painting—as an investment, not an expense. Look around you at the houses going to rack and ruin. What is doing it? The weather. There is only one defense against weather and that is paint. But paint, like weather, is of many kinds. Beware of the fair weather paint. It does not protect, it only deceives. Buy a paint that has proved its staying power.

SWP (Sherwin-Williams House Paint, Prepared) has a fifty-year record. Its ingredients are what experience has proved to be most efficient in protecting property. It also adds beauty and cleanliness to buildings and the elements of the landscape.
