

High Cost of Spending

When you spend \$100, do you stop to think that your action will cost you about \$6.00 a year for the rest of our life?

It is a fact. That's what your \$100 would have earned you, had you kept it at 6 per cent simple interest. That's 50 cents a month; it amounts to \$60 in ten years; it is \$120 in 20 years, or \$240 in 40 years. That is what it costs you to spend a hundred dollars now. Can you see why people who save become wealthy? It is plain as the nose on your face.
