**Saved Obstinate Lady
 Some Embarrassment**

The landward face of the Rock of Gibraltar stands directly opposite to a conspicuous height, called the "Queen of Spain's Chair."

This name has its origin in a legend of the great siege. It is said that the queen of Spain took up a position on this height, vowing she would not leave it till she saw the Spanish flag flying over the Rock of Gibraltar. A report of the royal lady's situation ultimately reached the governor, General Elliott, who at once most gallantly caused the Spanish flag to be waved on the summit of the Rock.

Whether the legend is true or not, it is certain that there are no more striking aspects of the Rock than those obtained by the pedestrians who make the rough ascent up to the "Queen of Spain's Chair." In traversing the Spanish town of Lines, separated from the Rock by the tongue of neutral ground some half-mile in length, pictures of primitive Spain present themselves at every turn.

In making the tower the objective, one emerges from the town by narrow footpaths and donkey tracks. The rough slopes of the hill afford pasture for numerous herds of goats, every herd tended by a shepherd with a long staff.

A pile of naked rock crowns the summit of the hill. On the topmost of these stands an ancient watch-tower. From here the whole circle of the horizon is a magnificent panorama of sea and mountain, a picture in which the situation of the Rock presents its full significance, thrust out into the blue Mediterranean toward the mountains of Morocco.

"I AM FOR ECONOMY. AFTER THAT I AM FOR MORE ECONOMY."—COOLIDGE

He proved his faith by his works. This administration has saved the people \$6,000,000 daily in taxes as compared with 1921. It has lopped off 35,456 employees from the federal payrolls.

Dawes, the budgeteer, put the country on a business basis by cutting out the deadwood in governmental affairs. Deficits in former years has been turned into surpluses. The national debt has been reduced \$2,750,000 in three years.

FOREIGN POLICY SPELLS PEACE ABROAD AND PROSPERITY AT HOME

The Dawes plan has made possible rehabilitation of Europe, which means better markets and better prices for American farm crops. Limitation of armaments is an administration policy and makes for peace as well as reduces cost of government.

The Republican tariff, linked with restrictive immigration, has brought prosperity to the man who toils. Wages were never so high, they would never buy so much, as today.

COOLIDGE POLICIES HAVE REESTABLISHED PROSPERITY—CONTINUE THEM

When this administration took office, it faced all the problems of reconstruction. Deploable conditions existed. The people were suffering from a tremendous deflation. Interest was high and capital scarce. There was general acute financial distress. Our citizens were compelled to sell their government bonds around 85 that they had bought in wartime at par.

A complete change has been accomplished. Never before in peace time has there been such constructive accomplishments as since March, 1921. Prosperity for all the people has replaced general distress. Industrially, the country was never on firmer ground. Agriculture, in dire plight when the Republican party came into power, faces a brightening future. Our depreciated government bonds have risen above par and one is selling at better than 105.
