Why let the car or some valuable piece of machinery stand out in the weather and depreciate from unnecessary exposure.

You can build a neat garage or convenient shed at slight expense. Don't look at the construction of a necessary building as an expense but as a thrifty investment. Remember that when a man NEEDS a garage or shed, he pays for it whether he builds it or not—but if he leaves his car or machine out to rust, he pays for the building and has nothing to show for it. Build today and have something to show for your investment. Take advantage of our Free Plans Service.

Protect Birds of Paradise The lure of the gorgeous plumage of the birds of paradise leads many hunters to the almost inaccessible parts of New Guinea. In spite of the risk and danger, so many are in the business that this wonderful, feathered beauty is in danger of extinction. As a result the Dutch government of New Guinea is considering a law to protect them. The birds are found amid high mountains and waste, foul-smelling swamps and jungle, and hundreds of gunners, brave these perils every year. Sometimes a party is compelled to live for months amid perils of poisonous everglades surrounded by deadly reptiles, hostile savages and prowling animals. The most sought-for variety of the plumes are those of the blue bird of paradise. As much as \$500 has been paid for a single specimen, while red, brown and yellow ones command prices from \$25 to \$500.

The Wrong Hat The good parson was a bit absent-minded and somewhere or other during the day, possibly at the barber shop, he acquired a hat that looked very like his but belonged to someone else. That evening he dined out and when the guests were leaving the host accompanied them to the door. "This is yours, is it not?" said the host, picking up the parson's hat. "Yes," said the parson, "That is mine."

There was a queer smile on the host's face as he handed over the headgear. For posted in the crown thereof was a card bearing this legend, meant for all and sundry: "No, you fool! This ain't your hat."—Boston Transcript.

A STATEMENT

Pendleton, Ore., Oct. 2, 1924. To the Editor: In order that the taxpayers may know the amount of work accomplished by the present Sheriff of Umatilla county, I desire to submit the following figures: Total number of prisoners in the county jail for four full years, 1917 to 1920, 549; total number of prisoners in county jail for three years and nine months during the present administration 1141. This means almost twice as many prisoners as there were during the term preceding mine. I have handled these prisoners without any increase of deputies but have used the same number that was used ten years ago. Fines collected through the Sheriff's office during Houser administration amount to over \$13,300.00. These fines are nearly all for violation of the prohibition law. They are almost double any equal preceding period. The taxpayers should understand that the Sheriff's office has collected in this money but does not spend it. Under the present law a part of it is used for the enforcement of the prohibition law. It is spent by other officers, not by the Sheriff. Much of the prohibition enforcement work done by the other officers during the last two years was made possible by the successful prohibition work done and by the fines collected through the Sheriff's office. The statement which has been made by some persons that "Houser does not do anything," is utterly false. It would be nearer the truth to say that "Houser has done everything that has been done," and this is so because the Sheriff's office has directly done more than any preceding administration and by means of fines collected has made it possible for other officers to carry on prohibition work. The taxpayers should know that the Sheriff's duties have increased in almost every department. New forms and kinds of taxes must be collected. The safety of the highway, arrest of speeders, etc., has grown to be a constant problem. The Sheriff now handles automobile licenses. This requires much time. These matters together with court work, the increased number of prisoners, and the increased duties brought about by the enforcement of the prohibition law and general work, have practically doubled the work of the Sheriff's office since 1920. There is no increase in the number of regular deputies. Some special help has been employed in connection with the tax collections and office work. This is unavoidable and is done at the lowest cost consistent with good service. I have made this good record by staying on the job almost twenty-four hours per day. No man can stay with the work more closely than I do. No Sheriff before has done so much work at so low a cost. No one else can do the work better for less money. No other person seeking the sheriff's office is in better touch with its problems than I am. I have not had the best support in law enforcement from some of the other officials but I have succeeded in spite of handicaps. Conditions in this regard are improving and will improve more in the future. I would be glad if all taxpayers could investigate the county records. Fair examination of the records make the extravagant claims of self-serving office seekers look foolish. With great confidence I make the claim that if re-elected, my next administration will be yet more satisfactory to the taxpayers and myself than the one which is about to end. Very truly, ZOETH HOUSER, SHERIFF.

Which State Will Grow?

(Paid Advertisement) Washington... NO Income Tax Oregon... INCOME TAX California... NO Income Tax WE HAVE EXAMINED copies of the documentary evidence as to the effect of a state income tax upon Oregon. We are satisfied as to the genuineness of the documents. We find that this evidence substantiates the claim that many millions of dollars have been diverted from investment in Oregon industries that would provide a home market for Oregon agricultural products. We find the damage is so serious and of such extent that we appeal to our neighbors and to voters in all parts of Oregon to vote for the repeal of the present income tax and to oppose the enactment of any new state income tax bill, at least until such time as the other Pacific Coast states have enacted similar legislation so they cannot grow at Oregon's expense. We do not object to paying a state income tax, but we do object to imposing a tax that keeps capital out of our state, retards state development and tends to leave our farmers dependent upon distant markets. We resent the tendency to give Oregon the reputation of being a "backward state." Oregon's resources and courage and enterprise of her pioneer people entitle her to a great destiny. Let us all join hands to rid Oregon of legislation that handicaps Oregon development. READ THE NAMES OF THE SIGNERS
