ALFALFA DAMAGE ELSEWHERE
 Sam Boardman, with the state highway, drove back through town from a trip to Boise, Idaho, last week and states that a hay stack is unusual all along the highway. In Baker county he says that 90 per cent of the alfalfa was winter killed and the stockmen are already guessing how they are going to feed their cattle and sheep this coming winter. In Idaho the alfalfa is also badly damaged and the hay all consumed. He expects that alfalfa hay will be higher than a cat's back this winter.

Words Wrongly Spelled
 "I have seen lists of the words most often misspelled," said a teacher quoted in the New York Times, "but in my experience the one most frequently sinned against in print is 'gauge.' I have even found it stamped 'gauge' on the manufactured article. The next most frequently misspelled, I don't know. But for one infrequently used, 'buoy' certainly ranks high. 'Weird' seems to give some people lots of trouble, and almost everybody on a test will misspell 'deleble,' because better acquainted with its negative 'indelible,' which has changed its original spelling."

Waldo Turned a Corner
 Waldo's teacher had asked him to write a sentence containing the word amphibious, and as Waldo was but twelve, he had some trouble spelling the word, but, after several calls or teacher for aid, evidently got it written to his satisfaction. Then ensued a long period of concentration and wriggling. It was broken when Waldo asked teacher how to spell containing. At last he laid the results of his labor on the teacher's desk, and this is what she read:
 "My teacher has asked me to write a sentence containing the word amphibious."—Philadelphia Ledger.
