SWEEPSTAKES OF THE LOS ANGELES-YOSEMITE ECONOMY RUN WON with ZEROLENE

The Los Angeles-Yosemite Economy Run of May 22-23—the ranking stock car event of its kind in the United States, gave motordom new official mileage records to vie for—and another impressive victory for Zerolene!

The Rollin, lubricated with Zerolene, carried off the sweepstakes—winning the award for the highest efficiency and gasoline economy established in the run. Piloted by Joe Bozzani, the Rollin's gasoline economy record for the 360 mile run from Los Angeles into the Sierras to Camp Curry was 27.43 miles per gallon of gasoline.

When Zerolene brings in the Sweepstakes Winner of the most competitive motoring event of the year—when it is the choice of more motorists in the Pacific Coast states than any other oil made—won't it pay you to use Zerolene—a better oil even if it does cost less?

and note

STANDARD OIL COMPANY (California)

The Rollin and all other cars in the run used Red Crown gasoline exclusively—the best buy in town—by MILES!

Why pay tribute to a superstition?

Red Cross Organization

The American Red Cross was organized in 1881, one of the most active founders being Clara Barton, who had served as a volunteer nurse in the Civil war and under the Red Cross flag in the Franco-Prussian conflict. She became the first president of the American Red Cross. It was Miss Barton's idea that relief should be provided also for the victims of earthquake, pestilence, or other calamity. Both the American body and the international committee soon adopted this extension of scope.

Theoretical Line

The 180th meridian in the Pacific ocean was selected as the international date line largely for the purpose of convenience. It is theoretically the opposite half of the circle of the meridian of Greenwich, which by common consent of the navigators of the world is the earth's prime or first meridian and is used as the common standard for reckoning time and measuring longitude.
