### Change Now—to a non-congealing oil

It's time to change to free-flowing Zerolene, if you do not already use this wonderful motor oil the whole year 'round. When other oils congeal in cold weather, Zerolene flows freely. It is an aid to easy starting and a sure protection from cold-weather frictional dangers, rapid depreciation and repairs. Don't take a chance—change to Zerolene NOW.

To determine the correct body of Zerolene for the winter lubrication of your car, consult the Zerolene Correct Lubrication Chart—at Standard Oil Service Stations and at dealers.

### MOTHERS AND DAUGHTERS BANQUET WEDNESDAY EVE

Over two hundred mothers and daughters were present at the banquet served at the M. E. church on Wednesday evening. The affair was a big success in every way. A program of speeches and musical numbers were given which were well received.

### Himalayan Horsechestnut

The original horsechestnut? Aesculus Hippocastanum, is the handsomest of the whole genus and one of the most beautiful trees in the world, says a bulletin of the Arnold Arboretum. It was brought to America at least 100 years ago and there are many noble specimens in cities and towns of the eastern states. The Himalayan horsechestnut and the species of central China are not hardy here, and the Arboretum has not succeeded in obtaining seeds of the north China species, Aesculus chinensis, which will probably flourish in this latitude.

### Crab Found in Book

In the matter of odd bookmarks between the pages of a returned volume, one librarian claimed the blue ribbon by citing a slice of raw bacon which he had salvaged from a copy of Mr. Service's poems. But the claim was instantly given second place when the chief of a famous library in a great manufacturing city countered with a soft-shell crab which turned up between the leaves of a book on engineering.—The Outlook.
