LOOK OUT FOR SELF POISONING

Neglect of the liver results in self poisoning! Not so quickly, perhaps, but just as surely as if you drank poison out of a bottle. If your liver is not doing its work of helping digestion, eliminating waste from the bowels and purifying the blood, you will always be troubled with sick headaches, nausea, biliousness, bad breath, gas, sour stomach or constipation.

Cleanse and tone your liver! Put your system in condition so you feel your very best again! Try just a spoonful of Dr. H. S. Thacher's excellent Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep, look and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost.

FREE! This Coupon is Good for Sample Bottle

The BULL'S EYE

Editor and General Manager WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Zigfield Folger and screen star, and leading American humorist. More coming. Watch for them.

If You Want to Look Like This —Don't Smoke

You are going to be disappointed when you look at the face in this Advertisement. It will be such a shock from the type of Faces you always see in Advertisements. They generally get some Guys face to use in a Collar or Underwear Ad that looks like he was just born for that Ad. You never see him in real life or anything that ever looked like him. These "Bull" Durham people conceived the idea of something new. They felt that you were tired looking at such handsome faces in Ads, it was so discouraging to men who looked at them because they knew they could never look like these fellows themselves. So they wanted a homely face that would be an inspiration to other homely men, (because there is a terrible lot of hard looking Birds among you readers). So after looking the World over they picked on me. I don't smoke "Bull" Durham, so the Moral is IF YOU WILL SMOKE IT, YOU WILL NEVER LOOK LIKE ME. I am the horrible example of a man not using it.

Will Rogers
P. S. There is going to be another piece in this paper soon. Look for it.

For winter driving—

change your oil

IN winter your automobile requires a free-flowing oil, if it is to start quickly and be free from dangerous friction. All oils do not meet this requirement, but here again Zerolene proves one of its superiorities — it flows freely at low temperatures.

To determine the correct body of Zerolene for the winter lubrication of your car, consult the Zerolene Correct Lubrication Chart — at Standard Oil Service Stations and at dealers.
