The BULL'S EYE

America is Safe with "Bull" Durham

A gang of Scientists left on a Boat for a year's cruise to study queer kind of Fish in the South Atlantic Ocean. They should have stayed here in New York and went to see and hear what I did the other day, a real Red Bolshevik meeting. They would have seen queer looking Fish there, Suckers, Fels, Flounders, Bullheads, and every Guy that got up was a big mouth Bass. They denounced everything in America, The Weather, The Constitution, White Gloves for Pall Bearers, Mah Jongg, Lower Taxes, Suspenders, Cross Word Puzzles, Shower Baths, League of Nations and Ice Cream Pies. After looking them all over I found what was the matter with them. There wasn't a one of them knew enough to roll his own. How are you going to improve on a Government if you dont know that much. Every man you see pouring "Bull" Durham into his paper, you can bet he is satisfied with America, because its the old right down to earth Americans that do it.
