

POULTRY HOUSE IDEAS

The poor lumber dealer got an awful wallop not long ago. And this is the way it happened. Chicken houses were being built at least twelve high with a wonderful arrangement of eash and ventilators way up there so high that they might have served as "lookouts" in the time of invasion.

Since chickens are not built on the same plan as giraffes, folks began to realize that all that superstructure was unnecessary. Now they build their poultry houses not more than eight feet high at the highest place. They have found that the chickens can keep warmer and with a simple ventilating arrangement they do much better.

But it doesn't take near as much lumber to build this new style house, and that is why we feel discouraged, but it will brighten us up a great deal if you will build for 300 hens instead of for the 200 that you had thought of.

You can do it for the same money

We'll sell the same amount of lumber and you will have increased your capacity fifty per cent without additional expense. You'll be happy and so will we.

You Can't Smoke History

A fellow from Carolina wants to know where I get the idea that "Bull" Durham and George Washington come from the same state. He says, "Why don't you write and give the people the real History of 'Bull' Durham in its native State, South Carolina, that people would appreciate that more than these Bull Legends of yours."

Now thanks, Sir, for your good-natured suggestion. If I knew History I wouldn't be able to write "Bull" Durham Ads. I would be a College Professor, get everything right, and get nothing for it. Everything you suggested me telling the public about when and where "Bull" Durham originated, has been told for 66 years by typical Advertising writers. That's the only thing the Company asked of me was "please don't tell again where it came from, or how." You see you didn't read their Ads, but you did read mine and remembered it, because it was wrong.

Writing Ads that will be remembered is a queer game. This is an Ad, not a History. I selected Ads over History on account of the pay. (American Tobacco Company's pay is as good as its tobacco.) Where "Bull" Durham comes from or where it goes to is left for the starving Historian.

Will Rogers

P.S. You notice I named in this article the WRONG Carolina. That's so North Carolina will get sore because I named South Carolina, and South Carolina will get sore because I didn't name North Carolina. A true Southerner never forgets.

P.P.S. There will be another piece in this paper soon. Watch for it.
