LOOK OUT FOR SELF POISONING

Neglect of the liver results in self poisoning! Not so quickly, perhaps, but just as surely as if you drank poison out of a bottle. If your liver is not doing its work of helping digestion, eliminating waste from the bowels and purifying the blood, you will always be troubled with sick headaches, nausea, biliousness, bad breath, gas, sour stomach or constipation.

Cleanse and tone your liver! Put your system in condition so you feel your very best again! Try just a spoonful of Dr. H. S. Thacher's excellent Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep, look and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost.

FREE! This Coupon is Good for Sample Bottle

Dr. Thacher's Liver & Blood Syrup if presented before the supply for free distribution is already given away. Read the full details above, then act at once, as this offer is limited. Get a trial size now by presenting this coupon to Mitchell Drug Company.

Heavy Hogs Penalized

That the discrimination against overweight hogs is being drawn more finely now than in the past is the statement made by H. J. Stillings, following his return from Portland where he had a load of livestock belonging to project farmers on the market last Monday. Herebefore hogs weighing more than 250 pounds have brought a lower price, but last Monday, hogs weighing more than 200 pounds were worth from 10 to 50 cents per hundred weight less than those under 200 pounds. Cheapness of corn in the east is causing farmers to put lots of fat on hogs, and the result is that light hogs are commanding the premium on the Portland market. The lighter hogs from here topped Portland's Monday market at 14 cents.

Columbia Scouts Place

Nine members of the Columbia troop of Boy Scouts made the trip to Pendleton last Saturday for the rally. They were accompanied by

R. B. Hough, scoutmaster and John Andrews. The boys won third place in knot tying and took eight points. The scouts who made the trip were Tilford Stillings, Gerald Haddock, Walther Ott, Walter Andrews, Owen Hunt, Oscar Whitsett, Victor Addleman, Robert Bennett and Robert Hooker.

MINNEHAHA LOCALS

Peter Jackson of Longview, Washington, is visiting at the home of his brothers, E. L. and C. M. Jackson. Mrs. Rena Calkins of Arlington is visiting at the home of John Calkins.

Mr. and Mrs. Hutchinson, formerly of Portland, who have recently moved to our neighborhood, express the opinion that Hermiston's brand of weather compares favorably with that put up by Portland.

W. G. Rodda has been on the sick list, but since the bees of the project and adjoining sections demand his time, he feels he hasn't time to be sick.

Mr. Matott reports baseball, golf and golf not so bad, but fishing is not what it should be and we have an idea that he is planning a fishing trip to the place where the kind of fish that you talk about are caught, but being a person of action more than of words, even in fishing, we do not know as to the truth of the last statement.

Last Friday afternoon the children of the school and some of the little people of the neighborhood enjoyed an Easter egg hunt after which egg races were given. Rosella Matott was the winner in the little folks race with Billy Jackson a close second. Bessie Calkins was winner in the race for larger pupils.

That the people of Minnehaha section are here and here to stay is made evident by improvements being made.

Wm. Hinesline with Mr. Williams' aid has completed a large dairy barn and a new garage.

Roe McFall has a new separator room and garage.

Mr. Pennock has leveled and reseeded his lawn, excavated a sunken garden of which Mrs. Pennock is now supervising the planting.

Clyde McElroy has set out large shade trees around his new house to provide a shady playground for the new boy.

Mr. Rodda has been leveling for flower gardens. Mr. Harris has been making substantial improvements on his grounds and Charley McElroy has built a new cement foundation under his house and he plans a cement basement. He has also built up a fine drive to his home. Grandma McElroy says she questions whether this improvement is all for her. Probably the fact that he expects the arrival of his brother and family and sister and family from western central states as soon as roads are open for auto travel is responsible for these improvements. The two families expect to locate here.

The school board has woven wire and cement posts for fencing the school grounds and expect to have the work done soon.

There is a considerable acreage of barley in preparation for new seeding of alfalfa. C. M. and E. L. Jackson, Charles McElroy and others have considerable acreage.

NOTICE TO CREDITORS

In the Circuit Court of the State of Oregon for the County of Umatilla in the Matter of the Estate of

S. P. Hutchinson, deceased. The undersigned having been by order of the County Court of the State of Oregon for Umatilla County, appointed Executrix of the Last Will and Testament of S. P. Hutchinson, deceased, notice is hereby given to all persons having claims against said estate to present them, with proper vouchers, within six months from the date of this notice, to said Executrix at the office of her attorney, C. Z. Randall, at Room 24, Stangler Building, Pendleton, Oregon.

Dated April 8, 1926. Goldia Yates, Executrix of the Last Will and Testament of S. P. Hutchinson, Deceased. 31-5tc

Bekley Heads Wool Body C. L. Bekley of Dixonville, Oregon, was recently re-elected president of the Pacific Cooperative Wool growers association. Dr. H. E. Brownell of San Francisco was elected vice-president and E. A. McCornack of Eugene secretary-treasurer. The directors were in addition to the offices named W. E. Hunt, Maupin, Oregon; W. B. Barrett, Portland, formerly a leading wool grower of Morrow county; S. D. Dorman, Ontario, Oregon; C. V. Bales, Kimberly, Oregon; F. S. Gedney, Mountain Home, Idaho; James V. Davis, Pullman, Washington; D. H. Prior, Blocksburg, California; H. E. Bigelow, O'Neale, California; J. D. Yeager, Simpson, Nevada; J. A. McBride, Elko, Nevada; J. A. McBride, Elko, Nevada; H. F. Dangberg, Minder, Nevada.

Send It To The Laundry

Science proves that it is very unhealthy to dry clothing indoors, especially during damp or stormy weather when pneumonia is more or less prevalent.

The Domestic Laundry offers the following services:

1—FINISHING DEPARTMENT

Our new and modern equipment makes it possible for us to turn out a grade of finished work that is a source of pleasure to our many customers.

2—ROUGH DRY

Needs no introduction. Our rough dry patrons have more than doubled in the past two years.

3—THRIFT-SERVICE

Is the name of a new department, which is meeting with great popularity. The flat work, both towels, handkerchiefs, etc., are ironed carefully and ready to use. The wearing apparel is returned damp but woollens are dried so that no possibility of shrinkage exists. This service is being offered at 5c per pound plus 1c per piece.

Domestic Laundry Inc.

Where Name Gamaliel Occurs in the Bible

Two men by the name of Gamaliel are spoken of in the Bible. The periods in which they lived were widely separated. The name of the first is found in Numbers 1:10. He was the son of Pedahazur, a prince or captain of the Tribe of Manasseh, and he is here mentioned in connection with the census of Sinai. He again mentioned in chapters 2:20; 7:54 and 10:23, the latter reference being to Gamaliel as captain of the Tribe of Manasseh at the starting of the Israelites on their march through the wilderness. The second Gamaliel was a Pharisee and celebrated doctor of the law, who gave sound worldly advice to the Sanhedrin respecting the treatment of the followers of our Lord. This will be found in Acts 5:34. It is also learned from 22:3 that he was the teacher of St. Paul when the latter was a young man zealously devoted to Judaism. He is generally identified with the very celebrated Jewish doctor, Gamaliel, who was the son of Rabbi Simeon, and grandson of the celebrated Hillel. He was president of the Sanhedrin, the great council of the Jews, during the reigns of the Roman emperors Tiberius, Caligula and Claudius.

Plans are now under way to hold a tournament within a short time to determine the membership of a team which will meet Arlington and Boardman in another match in the near future. It is planned to have each player go 36 holes to determine the team's personnel. The match probably will be held at Arlington later this month.

Individual scores of the various players were as follows: Arlington—Snell, 55; D. Donnelly, 69; McMillan, 56; Story, 62; Stevens, 64; and Blackburn, 54. Boardman—Smith, 59; Boardman, 58; McPherson, 58; Ballenger, 59; Doring, 60; and Fish, 54. Hermiston—Norton, 52; W. Felt-house, 65; Paul, 65; Brownson, 71; Sears, 58; and Prime, 65.

Science Vainly Seeks New Sources of Silk

In spite of the enormous increase in the production of artificial silk, real silkworm silk is just as much sought after as ever, and is even more expensive than formerly. So much so that attempts have been made to find other insects to produce it. Spiders have been tried, and other caterpillars besides that of the silkworm moth, but without much success. The oddest source from which silk has been obtained is a shellfish, a sort of mussel, called the "pinna" and found in the Mediterranean.

This creature fastens itself to the rocks with fine and very strong threads, which can be spun into lovely golden yellow silk.

But it is not likely that sea silk will ever be a commercial proposition. The thread is very short, the filaments being not more than three inches long. Also, it takes more than three thousand of the fish to produce one pound of silk. Yet a little is produced and worked in Sicilian coast villages.

Blood Analysis Helps Doctor in Diagnosis

The doctor who used to feel his patient's pulse or gaze into a glistening mouth to determine the cause of illness nowadays takes a drop of blood to analyze. The guilt for much of human suffering has been traced to the germs, tiny but deadly, which force their entrance into the human body, and which can only be detected by such analysis.

"Blood tests provide us with clues to an ever-growing number of ailments," said a doctor to the writer.

"It is being found, for instance, that eye complaints are often due to the absorption of germs which have affected other parts of the body, such as the tonsils. We can often detect them by testing the blood."

"Many cases of illness are due to something taken in from without—usually microscopic germs. More and more of these germs are becoming known to us every day. There is reason to believe that the origins of other diseases which are still unknown may be found in the same cause."

Lace-Making Old Art

Lace-making, embroidery and fine needlework in general are credited to the Greeks, and its antiquity goes back to mythology almost. Minerva is said to have originated the art of pictorial needlework. Many books on lace-making and embroidery have been traced back to the Middle Ages. The Greeks are thought to have brought it from Egypt, and the Chaldeans, whose civilization was earlier than that of the Egyptians, had developed it to a fine degree also. France gave it wide popularity after the Christian era.

Worms in Soil

The best treatment for the worms in the soil, which are not likely to be doing any harm, is watering several times with lime water, as recommended recently. Different kinds of worms are found in soil in which there is decaying vegetable matter, but they are harmless. Castor oil is not likely to do your plants any good, and we should not advise using it.—Montreal Family Herald.
