THE ECLIPSE LAWN MOWER

GUARANTEED FOR TEN YEARS

The Eclipse is the only self-sharpening lawn mower on the market. Its first cost is therefore its only cost. You do not have to pay someone to sharpen it from time to time.

The self-sharpening device is patented. To sharpen the Eclipse you simply turn a little sleeve on the center of the reel shaft, spread a little mixed emery and oil on the cutter-bar blade, and push the Mower backward. The emery grinds both the reel blades and the cutter-bar blade by this one operation so they match each other perfectly like the blades of a pair of shears.

This is the only way to properly sharpen a lawn mower. The Eclipse has a patented adjusting feature that brings the cutter-bar blade and the reel blades in close alignment and is very simple to operate.

This is also an exclusive Eclipse feature. All cutting blades are highly tapered crucible steel, and will last a lifetime. The Eclipse is the easiest mower made to keep in good running condition. Every adjustment is simple, efficient, and practically fool-proof.

The Eclipse has been manufactured and sold for 22 years, and many of the first machines made are still in active service. This is why we can afford to guarantee The Eclipse for ten years.

The Prophet Lawn Mower

GUARANTEED FOR FIVE YEARS

The Prophet Lawn Mower is made of the same high grade materials as the Eclipse—but without the patented self-sharpening feature.

It is standard in size and weight—neat in appearance—carefully manufactured—and is the best lawn mower that you can buy at the price.

The reel blades and the cutter-bar blade are highly tempered crucible steel, and will give long service. The adjustment features are simple, efficient and practically fool-proof.

Every mechanical principle used in this mower has stood the test of time. That is why we guarantee The Prophet Lawn Mower for five years.

The Lady Lawn Mower

GUARANTEED FOR TWO YEARS

The Lady Lawn Mower is a small, well built machine, manufactured with the same care and from the same grade of materials as used in The Eclipse and The Prophet. It is sold at a lower price because it is smaller and lighter—and does not have the adjusting and self-sharpening features of the Eclipse.

It has been manufactured and successfully sold by us for years. That is why we can guarantee it for two years.
