

Unseen Sources of Long Life

The basic sources of automobile value are not always apparent to the eye.

A motor car, like a house, may LOOK a great deal more substantial than it really is.

Because of this difficulty, more and more thousands are turning to Dodge Brothers product for insurance against disappointment.

The years have proved, and each year proves anew, that Dodge Brothers are as deeply concerned with the UNSEEN goodness of their motor car, as with the seen.

The mileage it will deliver, the safety it will provide, the expense and trouble it will save the owner over a period of years, are quite as important to Dodge Brothers as the more obvious details of equipment and style.

A TIP CONCERNING YOUR CHICKEN HOUSE

Anticipating chicken house business for the late summer and fall, we secured a complete stock of material for this business early in the spring. This stock has been in the yard for the last five months and is now thoroughly dry.

This gives you a stock that will build an absolutely tight chicken house at the same price as green lumber would cost. You cannot afford to take a chance on using green lumber for a chicken house when we will guarantee the stock that we furnish not to shrink.

Mothers Appreciate the Haag Vortex ELECTRIC WASHING MACHINE

The Mother who has a Haag Vortex Washer has no worries about the kiddies' clean clothes. And it does not matter how deep the dirt grinds or how badly they are soiled, for they are easily and quickly washed.

Another thing Mother appreciates is the fact that she can wash a few pieces at a time with no trouble at all. For although the machine has a large capacity, its work is done just as effectively, if you wash only a few towels.

Simply rop the clothes into the sud, start the motor and in a remarkably short time the clothes are clean and ready for the line—no rubbing, no drudgery—and money saved every week. In fact, the Vortex will soon pay for itself.

MECHANICALLY PERFECT

All the mechanism of the Haag Vortex Washer is in one compact unit securely attached to the frame and completely covered—no exposed parts. The slow moving, silent, machine cut gears transmit the power direct from the 1/4 H. P. motor to washer and wringer. The motor and wringer each have two oil holes, while the balance of the moving parts have oilless bearings, with the exception of the main gears which run in hard oil.

The motor is mounted on a wood base, providing complete insulation. Supplied with ten feet of cord and plug for attaching to electric socket.

BRIGHTLY NICKELED COPPER TUB DOES NOT STAIN AND IS EASY TO KEEP CLEAN

The 23-inch tub of the Haag Vortex is not merely heavy copper—it is heavy copper NICKEL PLATED on the inside. This bright, shiny surface is always easily kept clean and it will always be free from spots that are liable to stain your delicate fabrics. There are no cracks or corners to catch dirt and no cylinder to clean—simply lift out the Vortex, wipe it off and then wipe the tub dry and your washer will retain the original handsome appearance year after year.

A demonstration of the New Haag Vortex will quickly prove all that is claimed for it—and more. Let us show you what this new washer will do.
