

# Better than Ever-

Following their traditional policy of constant improvement with no yearly models, Dodge Brothers, during the past eight months, have vastly bettered their motor cars in many vital respects.

Indeed, there has never been an equal period in Dodge Brothers history when so many refinements of a popular and fundamental nature have been made.

The public is registering its appreciation of this progressive industrial service by purchasing every motor car Dodge Brothers can build—in spite of the fact that Dodge Brothers production, during these months, has broken all previous records by an impressive margin.

### A TIP CONCERNING YOUR CHICKEN HOUSE

Anticipating chicken house business for the late summer and fall, we secured a complete stock of material for this business early in the spring. This stock has been in the yard for the last five months and is now thoroughly dry.

This gives you a stock that will build an absolutely tight chicken house at the same price as green lumber would cost. You cannot afford to take a chance on using green lumber for a chicken house when we will guarantee the stock that we furnish not to shrink.

MATERIALLY YOURS

The Ladies Aid have planned to serve lunch during the Dairy and Hog show.

The M. E. ladies Aid society met with Mrs. P. Neadeau on Wednesday afternoon. There were 27 present. The next meeting will be all day Wednesday, Sept. 29, at the home of Mrs. George Strohm.

Mr. and Mrs. Harold Roysse are the parents of a son born on Sept. 6 at the Hermiston hospital.

#### Insects Provide Food for Imprisoned Frogs

A "Methuselah" frog has come to light. Two workmen tied to ropes, drilling into the rock 200 feet down the face of a cliff at Heddol slate quarries, came across him. They had to shift a massive boulder to get at his tiny house in the solid stone.

Frogs—or toads—have been found in all manner of unlikely places—even in coal mines. How do they get there? On what do they live? Prof. Sir William Boyd Dawkins answered the question when eight frogs were found in hard griststone on Werneth Low.

No frogs were in the world, he said, when the stone itself was being formed. Their ancestors then had not even dropped their tails.

The real explanation was simple. Frogs crept into the stone through some face fissure when they were very small. Flies and insects also obtained an entry in the same way, and on these the frogs lived. They grew fat, and could not get out again.

No other explanation is possible. Frogs have been sealed up in plant pots, but they have always died. It has been proved that they cannot live without food for a longer period than twelve months.—London Tit-Bits.

#### Bad Table Etiquette

##### No Cause for Divorce

A man in Paterson, N. J., suing for divorce, mentioned that one of the reasons for wanting to sever his matrimonial bonds was that his wife ate with a knife and that her table etiquette was very bad.

The judge promptly informed him that because his wife ate with her knife it was no cause for divorce.

And the judge was right. If such a thing was cause for divorce there would be thousands of shattered homes in this fair land.

Of course it is not proper to eat with a knife, especially green peas, as they roll off so easily, and again it is distressing to see a person scooping up food with a knife and giving an imitation of a sand dredge at work at Rockaway, making a new boulevard.

However, because a man carries an amateur sword swallower or vice versa, that is not cause enough to break up their home. They should buy books on etiquette and learn not to shovel in mashed potatoes with a knife or stab a radish with a keen blade.—Brooklyn Standard Union.

#### RICHARD S. WITTE

Richard S. Witte of Milwaukee, Wis., who was elected supreme chancellor of the Knights of Pythias at the recent convention in Chicago.

#### Know Virtues of Salad

British food experts who have been making a special study of the history of salads say the tomato is the single new ingredient modern times have contributed to salad making.

The pharaohs—even the beautiful Cleopatra—ate onions in large quantities in their salads and used garlic and other high-scented ingredients.

Confucius ate cucumbers and the ancient Chinese used mustard, water cress and nasturtium leaves and flowers in mixing their elaborate salads, which often contained hard-boiled eggs.

Ancient Persia was also very fond of salad making. Sour wine, not unlike modern vinegar, was used on lettuce by the Persians 4,000 years ago.

#### Little Thrift Lesson

By spending \$1 which you could have saved before you are twenty you spend \$10. By spending \$1 before you are thirty you spend \$5. By spending \$1 before you are forty you spend at least \$2. How so? One dollar or \$100 or any other number of dollars, carefully invested, will double in about a dozen years, explains Forbes Magazine. Therefore, \$1 saved and invested before twenty will amount to \$10 in forty years, or by the time most people think they would like to take life easy. The dollar saved before the age of thirty would amount to \$8 when the saver reached sixty.

#### The Bug for Business

They were at work gathering potato beetles from the backyard garden spot of their dad—big boy and little boy. They received ten cents a hundred for the striped-backed rascals. It was hard work for the boys and a premature investment of funds for the dad, but the potato crop had to be saved.

"These yellow eggs have to be smashed too," cried the little boy, exhibiting the patch underneath a leaf. "Oh, no, don't do that," yelled the big boy; "they'll hatch out an' make bugs, an' then we c'n pick 'em and git paid for 'em."

#### Reed Smoot Wins Utah Nomination

Salt Lake City.—The republican state convention has renominated Reed Smoot to succeed himself as United States senator from Utah. The action was taken Friday by acclamation.

#### Five Killed in Midwest Floods

Chicago.—Five lives were known to have been lost and \$2,000,000 worth of damage had been done at Terre Haute, Ind., and Jacksonville, Ill., in the third flood to sweep the central west in ten days.

## Which in your home

"Pump and carry"

"Faucet Service"

The difference between drudgery and convenience—the difference between merely existing and really living—that is the difference the Fairbanks-Morse Home Water Plant will make in your home and life.

You'll realize the truth of this when you see this finely built plant demonstrated. And you'll be surprised to find that it really costs you less to

have running water than to be without it.

Whatever your source of water supply—whatever capacity you require—whether you need an engine or motor driven plant—whatever price you wish to pay—there is a Fairbanks-Morse Home Water Plant that will give you dependable service and greater value per dollar. Let us prove it.

Automatic electric home water plant. 125 to 100 gallons per hour. Engine or motor driven. In permanent water systems, 500 to 1,000 gallons per hour.
