MODERN CLOTHES ADD TO COP'S WOES

Make Curfew Law Enforcement Difficult.

Chicago.—Time turned back a generation or two as Chicago, a sophisticated city of 3,000,000, revived the curfew law of its innocent village days, but policemen, bemused by the styles of the reigning generation, found enforcement a matter of considerable difficulty.

All boys and girls sixteen years old or under must be off the streets at ten o'clock, the city fathers had ruled in an effort to end a long record of attacks and kidnapings, and 3,000 bluecoats were sent forth to enforce the edict.

Then their troubles began, for they claimed that with the prevailing modes of short skirts, rolled hose and bobbed hair they were unable to distinguish children from grownups. Several married women, well past twenty, were taken into custody as "children," while bewildered policemen who stopped "kids" ere indignantly informed that their ages were above the curfew limit.

One suggestion that the age limit be raised to eighteen was made by juvenile authorities, but the youth-searching coppers maintained that that did not make much difference.

Although the order of the city police did not go into effect until recently, the county curfew, which applies to girls under sixteen after 10:30 p. m., was sounded the previous night. More than a score of girls were caught and warned that the next time they will go to the juvenile detention home. Their parents were notified.

The orders to the city police were to question any children found unescorted after the forbidden hour and send them home. On a second offense, under the city ordinance, the parents will face a fine of $5 to $100 and the child the juvenile court.

Parks were ordered cleared at 10 p. m., and county highway officers patrolled country roads and lovers' lanes.

"Youngsters must do their courting hereafter in the parlor at home," said Chief of Police Collins. "Not that we want to be old-fashioned and violate personal liberty, but simply as a common-sense measure to check dangers to themselves.

"The worst of the moron crimes are committed against young girls. It is too late to save them after they have been picked up or kidnaped."

Sane Tax Thinking an Oregon Need

By BRUCE DENNIS

Author of the Dennis Resolution

Once believing, as many honestly now believe, that a state income tax was the solution of taxation problems, I favored it. When chairman of the Assessment and Taxation Committee of 1923 Oregon Legislative Session I assisted in framing and adopting a state income tax law.

It reached a few individuals who were making good incomes and paying little, if any, property tax, but it drove from Oregon millions of very badly needed investing capital, as everyone knows who has kept posted on this state's affairs.

* * *

A dircet case that forced me to know a state income tax at this period of Oregon's development is unwise, was million dollar investment which had been planned for the city in which I then lived. This investment hesitated until the state income tax law was repealed. Then it proceeded to locate within that city's corporate limits paying municipal, high school and other taxes willingly. It also brought in a payroll of at least $20,000 a month.

* * *

This is but one instance of a large number throughout the state, which proves that no matter how pretty the theory of state income tax may seem to be, Oregon can ill afford to adopt such a business policy when no other western state has it, and our dire need is to secure more people with investing capital to develop industry within our borders.

* * *

Lowering taxes will never be done by an ambitious and progressive people. That has been demonstrated time and again when seemingly worthy projects of economy have failed of popular sanction. The demand of the public for improvements is so great that administrative economy effects only small savings.

* * *

These facts being of common knowledge and to a great extent, of record, how are Oregon people to obtain any tax relief?

Just one way: Attract more people and more investing capital to share the public burden.

* * *

No state secures new industry and new investing capital without offering some inducement.

That is why I introduced Senate Joint Resolution No. 5, commonly called the "Dennis" resolution, in the 1925 Legislative Session. That is why it was passed by the legislature and offered to Oregon voters for their consideration at this general election.

It provides that no income tax and no inheritance tax can be levied by the State of Oregon before 1940.

* * *

The Dennis Resolution is simply a business proposition. It is all nonsense for Oregon to adopt an income tax law one year, repeal it the next and then adopt it again the following year. By such methods the state gives out-siders, and her own people, the idea that we are all confused and cannot think out for ourselves and adopt a fixed policy relating to our financial affairs. It leaves the commonwealth in an unsettled condition, and causes constant uncertainty, undear which business and industry and the daily affairs of the people cannot prosper. The Dennis Resolution guarantees to investing capital and to all business generally a sane and safe policy until the year 1940 by assuring that this commonwealth will levy no state income or inheritance taxes on her people until that year.

* * *

Taking off inheritance taxes for that period is also a direct a direct bid for investing capital. The state treasury, instead of losing any money by doing away with ineritance tax, will gain many times such amount by the increased wealth attracted to Oregon, which will pay its regular taxes.

* * *

Capital seeks the channels of greatest awards and least hazards.

We have everything to attract it in the way of resources and climate.

Now, let us all do some hard thinking, cease calling each other names for a time, and vote for Oregon's advancement and prosperity.

Vote 306 X YES—Dennis Resolution.

Vote 329 X NO—Offset Income Tax Bill.

Vote 335 X NO —Grange Income Tax Bill.
