Tends to extravagant modes of living and foolish spending. If we could only profit by experience and save money while our earning power is greatest, then adverse years would not find us unprepared. Begin now—and put something aside regularly to provide for the time when your earning power does not equal your spending power.

Bee colonies may be so well prepared for winter in Oregon as to require no attention from late October to early March, says the bee specialist of the experiment station. The three essentials of preparation are large colonies, abundant stores, and winter protection. As many as 15,000 young workers in addition to the old, and no less than 40 to 50 pounds of honey are needed.
