

You Save Money at Kingsley's

You will have to hurry to get some of those canned goods that we are selling at 14c or two for 27c. Peas, Corn, Beans, Tomatoes, Hominy and Sauerkraut. They are the best for the money.

Flour has advanced 40c per barrel but we are still selling that Best Asoten, a hard wheat blended flour at \$1.95 for 48 pound sack.

We have fancy gallon Dill Pickles in glass at \$1.25. A nice Italian prune 50-60 size at 10c lb. or 25 lb. boxes at \$2.25.

Have you tried that 40c Coffee that we have. Some tell as that it is as good as some canned coffee that they pay a half more for. Why buy tin, and Memory Coffee at 50c is a wonder. Try it. See that nobby line of Dress Shoes for the men that just came in.

Observe how soon, and to what a degree, a mother's influence begins to operate. Her first ministrations for her infant is to enter, as it were, the valley of the shadow of death, and win its life at the peril of her own. How different must an affection thus founded be from all others.—Mrs. Sigourney. Evening service 8 P. M. Theme, Seasonable speech. A cordial welcome to all. A. J. Ware, pastor.

HOUSEWIVES ENJOY TALK BY NUTRITION EXPERT

A very successful meeting was held at the Hermiston Baptist church Thursday, April 28. This was the second of a series of meetings which Miss Case of O. A. C. is conducting here. About 20 salads were made and sampled by the 75 ladies present. All the salads were adjudged practical as well as delicious. In the afternoon Miss Case gave a splendid talk on the "Feeding of Mothers and Children." The lunch served at noon consisted of the salads demonstrated, sandwiches furnished by each lady and angel food cake.

The angel food was an added treat planned and furnished by the Neighborhood club. Miss Case will give her third demonstration some time in June. Date will be announced later.

Always grease an iron with lard or vaseline before putting it away for a long time, or it will rust. To remove rust on an iron, scour it with scouring powder, and rub well with a flannel cloth.

COMMUNITY CLUB KEEPS ITS PRESENT OFFICERS

A. P. Garner Chief Speaker at This Week's Session; Speaks On Mexico.

The regular meeting of the Community club was held in the library May 3 with Mrs. Taylor presiding. Plans were made and committees appointed to carry on the spelling contest and the fall flower show. The secretary was instructed to cast a unanimous ballot for the re-election of all the present officers for the following year.

A splendid program was presented. Miss Breton gave a very interesting talk on psychology and Miss "rocket" gave a most excellent reading. The main talk of the afternoon was given by A. P. Garner on a trip through Mexico. He spoke particularly of the contributions of the Aztecs to the country, of the races of people, their characteristics, customs, customs and laws of courtship and marriage, their civic improvements, always, architecture, art, mode of worship and their churches, the industrial life and the political situation. It was a most interesting and instructive talk of Mr. Garner's own personal observations and each one leaving him carried away a better understanding of Mexico and her conditions.

The state federation convention of Women's Clubs will be held at Bend May 23-26, and it is hoped that many from Hermiston will plan to attend.

The final Community club meeting for this year will be a luncheon Monday, May 16, at the hotel. Those desiring reservations please notify Mrs. C. W. Kellogg.

MORCROP

Fertilizers Increase Yield Per Acre and Per Man--Improve Quality, Save Labor and Make Bigger Profits.

Every progressive farmer is interested in bigger and better crops provided they can be produced at a profit. Every bushel, pound or ton of product sold off the farm, whether it be grain, vegetables, fruit, milk or meat, contains elements of plant food; and sooner or later every soil will show the effect of this constant drain on its resources in decreased yields. Fertilizers supply the crops with those elements of plant food which the soil, unaided, cannot supply, or those which are not supplied in nature or by the growth of legumes.

The labor required to produce high acre yields is little more than in the case of low acre yields; but the high yields are produced with less labor per bushel, pound or ton. By increasing the yield, fertilizers reduce the labor cost per unit of production.

Average yields just about pay the cost of production. The use of fertilizers in connection with other good farm practices point the way to more satisfactory profits and to higher income.
