Occurrences of Interest Gleaned Here and There About the City and Neighborhood

Miss Virginia Rodda left Monday for La Grande where she will attend summer normal school.

Stated communication Queen Esther Chapter, O. E. S., next Tuesday night.

James Johns and son, Tom Johns, were here a short time Friday morning. They were on the way to Portland.

Mrs. A. Doroff and son Raphael and Miss Stella Winczewski of St. Paul, Minnesota, are guests of their sister, Mrs. S. Kopacz of Stanfield.

"Small melons are setting on the vines in our country and prospects are looking good," said F. C. Frederickson of Irrigon when in Hermiston Tuesday.

Miss Maxie Bloch returned to her home in Portland Wednesday after a visit here with her cousin, Isabelle Dodd. Miss Dodd returned with her for a visit in Portland.

Mr. and Mrs. F. H. Morlan returned last Thursday from Walla Walla where Mrs. Morlan submitted to an operation for goitre. Her recovery has been very satisfactory.

Mrs. F. B. Swazey and Mr. and Mrs. Earl Mitchell and their guests are spending a vacation at Camp Sherman. Mr. Swazey accompanied them to camp and returned Tuesday night.

C. J. Hahn, former Hermiston resident, was in town a few days last week. He has been at Flora and other points in the eastern part of the state. He left Saturday for Portland for a short visit.

Mrs. Lucinda Randall and daughter, Miss Eva Randall, were guests of Hermiston friends Tuesday night. They were en route to Newport for a month and from there will go to California to visit relatives.

A. F. Hedwall used to live here with his parents, but for several years he has been living and working in Portland. He is with the Producers' Distributing corporation. He was here last week for a few days on a combined business and pleasure trip.

Mrs. R. C. Rogers returned from Union, Oregon, Wednesday where she has been visiting at the home of her parents, Mr. and Mrs. E. E. Woodruff. She was accompanied on the return trip by her sisters, Mrs. Eva Monroe and Mrs. May Hanan, who continued on to Portland the following day.

Miss Anna G. Hall, county librarian, was a Hermiston visitor Saturday afternoon. She has been granted a six months leave of absence, beginning July 1, on account of a threatened nervous breakdown, and her visit here was for the purpose of meeting with the local library board before her departure. Miss Mildred Berkeley accompanied Miss Hall.

Don Robinson of Pendleton runs the Domestic laundry as his regular vocation, but he has an avocation which is the job of managing the drum and bugle corps of the Pendleton post of the American Legion. "Some of these times when Hermiston is holding a party or celebration, let us know and we'll come down and make music for you," Mr. Robinson volunteered.

At the Baptist church Sunday, June 26—Bible school 10 A. M. At the 11 A. M. service will be a children's day program. Children of the Bible school and the superintendent, Mr. E. A. Benschel, will furnish the program. Parents and friends are invited to attend. Evening service, 8:00 P. M. Theme, Things Left Undone. A cordial welcome to all. A. J. Ware, pastor.

"Our White Leghorns and Jerseys are both giving mighty good accounts of themselves, right now," said P. P. Sullivan yesterday. "The fly in the ointment is that egg prices are not so good as the should be. We have 1900 chicks and laying hens, about 740 producers, and our feed bill for that big flock is heavy. Notwithstanding the present low prices for eggs, I think we are in a mighty good position here for success in the poultry business."

"Hermiston is the best little town I've visited for many a day." This statement was made by Rev. Geo. R. Ellis, pastor of the Methodist church at Middleton, Idaho, during a visit here this week. "I lived here about 15 years ago, and there are certainly a lot of changes to be seen," Rev. Ellis is thinking of returning here to live on a small tract of land he owns. He was particularly loud in his praise of the Hermiston Farm Bureau Co-operative.

George W. Hanscn, field man for the Bradstreet company, was a visitor in Hermiston last Friday. He was on a regular trip to interview business men, and his stop here concluded his work in the county. "Sometimes business men and farmers, too, are likely to get the idea when business is slow that their particular district is the slowest in the country," he said. "As a matter of fact, our reports as of June 7, showed that there was not a place in this country where collections were fair. The farming interests are showing increased confidence every where I've been, and that is a big factor in business."

♦ ♦ ♦ ♦ ♦
AT THE THEATRE
♦ ♦ ♦ ♦ ♦
The Georgia Blossoms, negro minstrels, will be here Friday night. The company carries eight people who know how to sing, dance and entertain.

The Saturday show will be "Barney," a Metro-Golden film. Sunday and Monday a good Western, "Under Western Skies," one of the films taken in Umatilla county, is billed. Rudolph Valentino's last picture, "The Eagle," will be shown next Tuesday and Wednesday.

Registering Emotion
Four-year-old Jimmie was fond of candy. One day, after he had eaten all he should have, his aunt put the sack out of his reach. Jimmie, not liking this, tried to think of some way which he might receive one more piece.

"Uncle Billy, if I cried would auntie give me another piece of candy?" hopefully asked Jimmie. When Uncle Billy replied that she might, Jimmie studied a minute, then had an idea. "Slap me, Uncle Billy, so I can cry."

Mercury's Many Uses
Mercury is an element sometimes found native, but mostly derived from cinnabar. Normally, by far the greater part of the world's production of mercury is used in extracting gold and silver from their ores. In 1914 and 1916, owing to the European war, it was used mainly in the manufacture of fulminate for explosive caps. It is also used in the manufacture of drugs, of electric appliances and of scientific apparatus, thermometers, barometers and for making vermilion. Mercury is found in California and Colorado.

It is Astonishing

—what an improvement can be made in a plain house by the magic of saw and hammer, boards and paint. The old house is transformed. A new porch—some better windows—a dormer or two and you would scarcely know the old house. The shifting of a partition—a new oak floor—built in kitchen cabinets or a window seat will often render the interior home more inviting and comfortable. A few hundred dollars spent for material in improving an old house frequently adds a thousand to its selling price. Come in and let us tell you how reasonable remodeling costs are just at this time.
