There's No Excuse

For sending out of town for printing. Very few individuals or firms are doing that today for the simple reason that they can depend on the Herald's fast service, dependable workmanship and reasonable prices for quality printing.

In addition, customers have the knowledge that any aid in the way of special knowledge about forms we have, is at their disposal in helping them solve the problem of that new piece of printing. Figure your next job of printing with your community printing factory.

"After looking around over this country for myself I'm convinced that a lot of the people who live here fail to give the country the credit that is its due." This opinion was expressed the other day by Dr. G. W. Shelton of Seattle who, accompanied by Mrs. Shelton, is here to visit Mr. and Mrs. George Shelton. George Shelton is their son. Dr. Shelton began the practice of medicine in 1874. He and Mrs. Shelton will spend about two weeks here visiting and will then go to Los Angeles where they plan to spend the winter.

GOLF CLUB TO HOLD ITS ANNUAL MEETING FRIDAY

The annual meeting of the Hermiston Golf club will be held Friday evening in the library, according to plans perfected by the organization. Officers are to be elected for another year, and other business needing attention will be discussed.

Interest in the game has increased with the return of cooler weather, and the course is the scene of some hard but bloodless battles every Sunday.

TEACHERS APPROVED BY BACHELORS REPORTER SAYS

Farm Writer in East Oregonian Studies Action of Local Men as Girls Return.

That local bachelors approve the selection of teachers made by the school board for the local schools is the findings made by Burton S. Hutton, field editor of the East Oregonian. Mr. Hutton gives most of his time to a study of farmers and farming, but at times he permits his study in human nature to take to other fields. Following is his findings as to the reaction of local bachelors to the return of the teachers:

Bachelors of Hermiston have put the work clothes on the shelf for the time being and have given the shoes a dash of polish and the suit a good going over for the fall season. Why the sudden flourish? The 1927 supply of school teachers has come to town.

The other day many of the new arrivals strolled into a popular eating place and it was the hardest thing for some of the more permanent residents of the city to restrain from casting a casual look in their direction. As the meal hour proceeded the tendency to look became more than casual for many had something wrong with the backs of their necks as they kept twitching so that their heads had to turn around every so often in order to get relief. It was too bad the tables weren't on revolving foundations.

Much has been said in papers about all kinds of seasons soon to open, but nothing has been said about the bachelor season which officially opens today as it is the first "part" of a day of school and all teachers must be on hand. In due respect to the Hermiston school board the selection made for their instructional staff seems to have high favor if current comments can be taken as a safe criterion.

Korell Republican Choice for Congress

Portland, Or.—Victor in a field of nine aspirants for the position of the late Congressman Maurice E. Crumpacker, Franklin F. Korell was nominated as the republican candidate on the second ballot of the republican congressional convention. Korell received 206 of a possible 367 votes. His closest opponent was Frank L. Shull, who received 83 votes.

CLINT JACKSON GROWS MELON THAT TIPS SCALE AT 53 1-2 POUNDS FOR RECORD OF SEASON

A watermelon that made the scales register 53 1-2 pounds was produced this year by Clint Jackson, Minnehaha district farmer. He raises quite an acreage of melons every year, and the crop gave a good account of itself again this season.

"That was my biggest melon, and I'm just wondering if anyone else raised a bigger one," Mr. Jackson said.

AT THE THEATRE

Friday and Saturday, September 9 and 10, Tom Mix will be here in "No Man's Gold." Country store on Saturday night.

"Fig Leaves," a picture everyone will want to see, will be here Friday and Saturday, September 16-17.

Modernize Your Home

On the left is the home of Mr. C. P. Constantine, of Seattle. This home was well built, but out of style.

On the right is Mr. Constantine's home after he had it reshingled with Western Red Cedar Shingles right over the old roof and side walls. The work was not at all expensive and the home is now in keeping with the modern houses which surround it.

We'll Be Glad To Help You

If your home is out of style, yet in a good neighborhood, don't sell it at a sacrifice—remodel it. You can lay Western Red Cedar Shingles over the old roof and sidewalls for very little more than the cost of repainting the building, and your upkeep will be much less. Reshingling, in this manner, cuts fuel bills too, because your outer walls and roof are double thick and hold heat that much better.

Up-to-date in Style and Comfort

Homes with Western Red Cedar Roofs and Side Walls are always in style and always good looking. Lay vertical grain Western Red Cedar Shingles with zinc-coated iron or copper nails and they will last a lifetime. Many beautiful color combinations are possible, if you wish to have your shingles stained. And these stained colors are permanent.

Cheaper to Heat Than Before

Your saving in fuel alone will help pay for a large share of the cost of reshingling your home over the old roofing and side walls. You will be pleasantly surprised by the moderate cost of bringing your home up to date with Western Red Cedar Shingles. We carry complete stocks both in natural colors and stained to suit your individual taste.

Good Equipment Makes a Good Farmer Better

Are you getting all your cream into your cream check? Regardless of what separator you are using, have your skim milk tested by our creamery man at least twice a year and definitely know if your separator is skimming clean.

The McCormick Deering Primrose Ball Bearing separators are paying for themselves many, many times over through clean skimming, long life and easy turning. In fact, the McCormick Deering Ball Bearing Primrose is not only a close skimmer, but makes play of a man's size job, for it requires 35 per cent less energy to turn than a plain bearing machine.

Some superior features of the Primrose are:

1. Clean and efficient skimming.
2. Easy running.
3. Ball bearing.
4. Long life.
5. Positive, automatic and visible oiling.
6. No oil holes.
7. Improved heavy hardware.
8. Easy bowl adjustment.
9. Sanitary and easily washed.
10. Long time payment plan.

There are many other features too numerous to mention, but if you will stop in or call us, we will be glad to show you the Primrose or to demonstrate its actual merits on your farm.
